ABOUT THIS ARCHIVE

All 588 posts from **/r/Chadfish**, as held by TheRedArchive.

About /r/Chadfish. A subreddit for online dating experiments generally using pictures of hot guys. TheRedArchive has archived it since May 2019 and is still collecting.

About TheRedArchive. TheRedArchive is a free, public archive of the Red Pill community, built so that none of this writing can quietly disappear. It holds **1,686,426 posts** and **38,841,813 comments** from 45 subreddits and 56 blogs. Much of it survives nowhere else — the accounts deleted, the subreddits banned, the websites long offline. All of it is free to read, search and download, and always will be, at www.TheRedArchive.com.

Support the mission. This Red Pill archive is free — no paywall, no account — but keeping it online isn't. I pay for the servers, the storage and the bandwidth myself, so that this valuable knowledge stays online. If you want to support the mission and archive, become one of the people who help keep it online at www.TheRedArchive.com/#help.

Share this file freely, and keep a copy of your own. What sits on one server can be taken down; what sits on a thousand hard drives cannot.

Yesterday - 9:56 PM

Lol anybody ever bring up the whole "Chad" thing, Chad?

Today - 2:59 AM

What chad thing?

Today - 11:02 AM

So in extreme "men's rights" groups there are dudes who call themselves "incels," short for "involuntarily celibate" and they bitch about "Chads" who got all the good genes and have all the sex and how dumb chicks are for only going for "Chads" and not them, the "nice guys." It's fascinating.

I work with teenagers and it's become a common slang term around me. It worries me, actually, because I don't think blaming attractive people for being attractive is a particularly smart way to critique culture. Plus, attractiveness is objective. There's no such thing as an ideal person.

*by "around me" I mean in my area, not about me.

arissiro · 19 June 2019 · Archived copy · Reddit

I just got a chadfish. I'm sitting on more likes in 30 minutes than I've ever had in my entire Tinder history.

Bitches are actually messaging me first.

This Blackpill is too fucking brutal.

I literally paid for Tinder gold at one point. I superliked hoes. I carefully thought out my Spotify anthem, and the order of my pictures, and all that shit.

Right now, my phone doesn't stop vibrating because of "you got a new match!!!" notifications.

This is too fucking brutal lads. I'm not even messaging these bitches because this shit is hitting me so hard. I "knew" all of this would happen - but actually experiencing it is something out of this fucking world.

There are men who actually live like this.

You faggots are defeating the whole purpose of this sub. This isn't for you faggots to live out your fantasies by having normal conversations with thots. And by 'normal' I mean your autistic idea of what you think a social guy sounds like. This sub is for gathering an overwhelming abundance of evidence that women will make themselves desperately available to men who are racist/toxic/disrespectful/autistic/deeply insecure as long as they are Chad. All you faggots are doing with your "Hehehe you look good want to hang out :)" bullshit is inflating the already sky-high egos of these thots.

This place was the final straw. It's mindnumbing how Chad can acquire 100 likes in a single day - let alone pedophile Chad, rapist Chad or domestic abuser Chad while all over r/Tinder and the broader internet you hear stories of average men getting *literally none*. I got 14 in one month by swiping left on everything and not a single one replied to my messages - I got unmatched by 2. Of course, I tried the whole "Photofeeler, interesting bio, witty opener" thing out but pedophile Chad can say "hey, want to fuck?" to one of his hundreds of matches and gets to feel desirable for a night - as if he needs that much validation. The inequality rates for such a basic human need blows my mind.

You know, I would be comfortable with Chad-priveledge if it meant that the lowest possible man was able to acquire at least some degree of affection and desirability. That's how it is with women. Yeah, Stacy gets all the hottest guys and the most "likes" and can get shat on by Arabs in Dubai for \$3 million but even the lowest possible woman gets *something* (see: pig-woman...or do the experiment yourself). An average-looking woman possess a similar degree of desirability as a 8+/10 man. Why don't they ever share the mind-blowing amount of affection they achieve with non-elite men? I would be happy with a success rate of just 1% of Chad's but I can't get that because I'm not good looking enough. How can a few men feast while most of us starve? JFL at this shitty world

“If you made a hot girl account and sent these messages to guys the outcome would be the same.” This just proves our point even more

Vortex_IQ · 22 June 2019 · Archived copy · Reddit

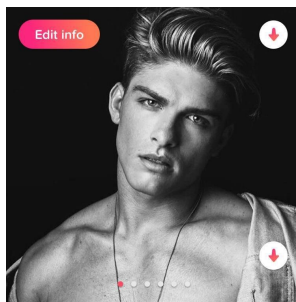

The fact that a hot girl could get the same reactions as chad on dating sites actually proves our point even more, because even an average looking girl could get away with a lot more than what chad does. This proves how much easier they have it and can literally do whatever they want because men are desperate Not to mention when a girl can't find a boyfriend the reactions are always “you're strong and beautiful”, “you'll find the right man eventually”, “don't settle for less than you're worth”. For guys who can't find a girlfriend it's always “work on your personality”, “go to the gym”, “focus on making more money” which is borderline useless advice if you aren't already attractive. The point of this sub is to show that guys are constantly being fed lies about dating and sex while women are not, which is why it doesn't matter if a hot girl could say the same exact things as chad

Initially, I thought you guys were losers.

Now, I'm not sure that the following was your intention, but you guys are doing a great job in exposing how much some women will tolerate racism, anti-demotion, pedophilia and God knows what else.

I'm not sure exactly how what you all are doing is wrong because you're never going to meet these people anyway lol. And tbh, if the gender roles reversed in these experiments, ppl would think it was funny, but you all get this weird backlash. I'm not an incel by any means, but in this age of revealing vile behavior, I think this sub is great.

So thanks.

Someone make a depressed, low self-esteem, self-hating or poor self-image Chad. Or maybe a Chad who was bullied a lot when he was growing up. Or any combination thereof.

The line is that incels hate themselves and that's why they are not getting any is because they are depressed, have low self-esteem, poor self-image and they hate themselves. Well, maybe so, but let's see what happens when Chad has those exact same chick repellent traits!

Catfished 2 girls into my restaurant Dish Pit.

Muscle_Hernia · 17 June 2019 · Archived copy · Reddit

For those who don't know: a dish pit is the area of the restaurant where all the dishes are cleaned

It's a regular day wageslaving at my shitty seafood restaurant and I feel like having some fun. Outside the temp is 25 degrees. I decide to fish some girls to the restaurant I work and tell them to ask for the dish pit

Low and behold, both show up to the front counter. I peak out from my sink area, here they are. They both are convinced that the dish pit is like this nice VIP area yet it's the area where all the dirty dishes go in the restaurant. The Indian chef then laughs and says to me "2 girls are here to see you". I'm like "oh really? No I think they're here to see Esteban, the other dishwasher" we all laugh. At which point the foids try to walk in but the chef won't allow because it's staff only. They leave feeling pissed off. Now they have to find a way home late at night with no public transportation since the busses are closed

We should chadfish reddit

Ji6abooJones · 17 June 2019 · Archived copy · Reddit

What I mean by this is making a new profile on reddit and uploading a picture of chad doing something like planting a flower and posting it to r/gardening

The goal would be to build up an account to look like a real chad. Then try to blackpill people or call them out on their bullshit.

We know they like going through post history to discredit everything. So I wanna know what their reaction would be to a chad bashing women and basically talking like a user on braincel.

There wouldn't be no "found the inkcel" or "yikes at your post history" they would be stunned and dumbfounded i just really want to see the response and reaction to it.

If I'm not making any sense let me know.

I tried chadfishing as an underage chad. I told 3 roasties 22, 24, 19 via message that i was actually 16. 2 of them said age wasn't an issue if there's consent. then I tld them tht I'll report you to the FBI and then she reported my account for being underage. That resulted in insta ban from tinder.

empatheticapathetic · 14 June 2019 · Archived copy · Reddit

This stuff is so eye opening and ground breaking. If you had any fucks left to give, let them go, because fucking hell, it's over.

It's easier to get on with my day and not give a fuck about any of this women shit anymore. It's relieving to know that none of them have any morals and I never ever have to give a Fuck about any shit they might come out with.

I'm thankful these experiments are so easy to set up, to understand, and to pass on to each other. I really can't imagine what the future would be like if all men got to see things like this, but I somewhat look forward to it.

It really would be so beneficial if someone made an easily readable archive of all of these. So when this sub gets nuked, these will remain. Something very easy to help awaken lost men, and to fend off any numales or foids who want to get in the way.

Thanks for all the hard work. It's definitely appreciated.

This sub is absolutely fantastic

locomotronn · 16 June 2019 · Archived copy · Reddit

Honestly. I've been in dates before. Have had few gfs and fwbs(nothing major)...

But before this sub I used to tiptoe so hard. Should I say this or that? Oh no, I chose wrong. Must try another approach

I use to beat myself up because I didn't understand my lack of confidence. Worry about how I dress, worry about every little thing. Didn't understand how to be "alpha". Then I worried that women actually only like powerful people. Blah blah blah.

Then this sub showed up. Hard at first but then... oh so it doesn't matter? Power doesn't matter? What I say doesn't matter? Literally I can be a domestic abuser and still do fine as long as I look good?

Dunno, just made me a lot more relieved. I'm at the point anyway where I'm more interested in taking care of myself than chasing puss. But, if that ever comes up, 99.8% of the time she simply wasn't physically attracted to me. Case finished. Nothing I can do about that after doing the best I can.

Life's really not at all that bad. Truth will set you free

69HonkPill420 · 23 June 2019 · Archived copy · Reddit

Yes an incel chad is a contradiction. But many people like on IT or AHS think "incel" is just an ideology, not something that you are.

So the idea would to make a chad who identifies as an "incel". This chad would dish out blackpills and would try to get matches to agree with his views.

It should be more than doable, we have had racist chads, sexist chads, nazi chads, and felon chads all with major success. Incel chad would *really* get to deniers of the blackpill.

Girl flaked on me, made a Chadfish, got tit pics from the same girl

AverageGrammer · 16 June 2019 · Archived copy · Reddit

Recently I matched with a 10/10 smoke-show whore on my regular account. I message her and ask if she wants to meet up, she tells me she's sick. OK, no problem. I text her a little bit more and she tells me she's trying to get some rest and that she'll text me later. She eventually texts me back but is obviously not interested so it dies out.

After that I came across this sub and see all the fun you guys are having so I figure, what the heck, I'll make a Chadfish of my own. So I set up a Bumble and swipe right on everyone. To no surprise, I match with this same girl again.

However, this time she's far more talkative. I tell her I'm just trying to fuck, nothing serious and it upsets her since she's told herself she's a good girl who doesn't do that but clearly all she can think about is Chad's cock.

She asks me for a pic but I say "you first." She sends me a picture of her cleavage. I respond: "why is your shirt still on?". She begins to suspect I'm fake but I play it off and am able to convince her otherwise. After that, she sends me a pic of her tits (which were amazing btw).

At this point she wants proof that I'm real (which I obviously can't provide) so I tell her "I don't take orders" hoping this would get me out of my predicament. It doesn't and she unmatched me, causing me to lose our entire convo and the picture.

I'm not surprised but being Chad felt like being God. There was nothing I could say wrong no matter how much of a dick I was and she even told me "I had a good vibe."

I know this might not be as good as the others but just wanted to share a field report. Keep up the good work out there everyone.

Remember all those articles about incel face surgery?

thatsrightamigo8989 · 23 June 2019 · Archived copy · Reddit

Not too long ago there was a string of articles about how incels are getting face surgery to look like chads. The articles ridiculed the men seeking out these surgeries and demonized them as terrible, misogynistic etc. I thought it was kind of weird. Women get breast augmentation and implants and that's regarded as either empowering or sad that evil shallow men drive women to do this to themselves.

But when men improve their faces it's laughable, weird, and anti-women for some reason. Jezebel *shudders* had a particularly shitty article about it. One of the common themes in these articles is that 'welp, surgery MAY fix their faces but not their horrible personalities lol.' The comments on the Jezebel article particularly echo this.

Now enter chad fishing. We now have proof that a chad can be the worst fucking person in the world and women will fawn over him. Women, their beta cuck followers, and it would seem society at large, just can't handle hearing that women are viciously superficial and unforgivingly so. Men are way more likely to settle than women. With chad fishing we know FOR A FACT that good looks activates hyper-slut mode in the supposedly fairer, gentler, kinder, more forgiving gender. Literally nothing matters as much as looks. Looks can trump ANYTHING.

All the advice they give is 100% bullshit and having their true nature exposed appears to be deeply humiliating for them. I've always been a severe and mean critic of incelism but seeing chad fishing has been hilarious as it has been eye opening.

I think chad fishing is honestly going to provoke deep change. Imagine showing all young men (and older men still out of the loop) a body of information that will allow them to 1) evaluate their own appearance so as to know if they are objectively good/bad looking 2) prove beyond a shadow of a doubt that your appearance DETERMINES, not affects but STONE COLD DETERMINES, how women will treat you and 3) demonstrate that women are cartoonishly affected by a man's looks to the point that they can overlook ANYTHING even RAPING CHILDREN provided that oh so handsome man appears to be showing interest in them.

I can't tell you how completely women's power over me has evaporated. How totally unseriously I take them now. They are children compared to us. That's why they constantly project that insult onto men. Imagine all the scams men will avoid. Imagine the change in spending habits. Imagine what will happen to women when they suddenly find themselves surrounded by ordinary looking men (85-90%) who give absolutely zero fucks about them because they know that because they don't look like a chad that woman will 100% treat them like dirt so who gives a shit. No favors, no special treatment, no compliments, no nothing. If I know I'm invisible to you then you are now invisible to me. If anyone asks me for help I'm going to demand that they offer proof that they're a good person.

And you know what? I say save up for chad surgery and live the chad life. Let the sluts and single mothers wallow in their situation and maybe when they make it out the other end they can pass on this information to the younger generations; men now know women are 100% full of shit, men thrive on respect and men have a far easier time dealing with loneliness than women. If you don't want to die alone then get ready to stay sweet, have reasonable standards and be agreeable because otherwise your life will be lonely.

Are female standards getting even higher?

bloyy · 9 June 2019 · Archived copy · Reddit

I've done chadfishing experiments a couple of years back, and I remember being absolutely inundated with likes and matches from women. Now, I have decided to test it out again. I set up the same profile as I did 2 years ago with about this 8-9/10 dude, and I am noticing that I am getting wayyy less matches than I did 2 years ago. Wtf is going on here? Are girls really only swiping on gigachad 10/10 with a perfectly square jaw? I am stunned. The standards are only on the rise as women receive validation from thirstier and thirstier average and above average men (regardless of her attractiveness).

Basically, 2 years ago the account would get 99+ likes on tinder in like 2 days. Easily 300 matches in a week. Now it's only getting like 3 or 4 likes per day, and it's only at 30 matches at the end of the week. Same profile, same everything. This is not good boys...we're fucked. More and more people are meeting online, soon it will be over half of all relationships meet online. The number of incels will grow and grow. What the fuck can we do?

About 2 years ago, before the atomic blackpill was released, I used Tinder and Bumble with a Chad profile. I was going to do it for a week but this blackpill is just so bitter when you are experiencing it yourself, so I only did it for 3 days. Since I live in a college town, and most of the roasties here are college aged, I decided to gather data from 3 different cities over the 3 days that have femoids who aren't just between 18-22. I set my age range on both apps at 18-35 and I messaged femoids all throughout that age range.

These were the pictures that I used. I used various combinations of pictures but the picture with the dog was always my first picture. I named the guy Alec, because Alec is a fuckboy name and femoids love him. Also, Chad may have been too obvious.

During the 3 days hundreds swiped right on me. On Bumble, you can see how many femoids have swiped right on you who you did not match with. This number hit 70 at one point. There were so many matches that I just couldn't keep up with all of them. I messaged only a fraction of the femoids I matched with.

Most femoids did not care about what I said. They were only concerned about the guy's looks. All of you already know that. I was able to get numbers from most of the femoids who I messaged. Some took a few more messages but eventually almost all of them came around, even though they knew I was only interested in sex.

When a femoid says that she isn't interested in sex, this just means that she needs the right Chad to come along and change her mind.

When I was doing this, I didn't want to make things too easy for Chad Alec. So I made my bio make me look as "creepy" and unappealing as possible. I learned 2 things. Most femoids don't even look at the bio. Only the pictures matter. Also, when they do look at the bio, they don't care about it at all. For example, when my bio said

6'2". I like women because they make my pee pee feel good.

this is how femoids reacted. There was at least one other femoid who reacted this way.

When my profile said

"6'2". Most of you can't cook, clean, or look after kids but I will gracefully accept the one thing you have to offer, which is your pussy. I will humiliate you by shoving my cock down your throat and cumming in your mouth and you'll like it."

(courtesy of /u/Incel910. I'm not sure if he's still around.)

this is how a femoid reacted. The irony here is even more painful because she is a single mother, a literal drain on society.

Eventually, I became tired of messaging these dumb bitches, so I decided to use one crude line to see how far it

would take me. [Here you go.](#)

Femoids are truly degenerate. None are innocent like we were once led to believe. As I was originally typing this I was getting more messages from femoids agreeing to "pizza and fucking". This is truly disgusting. I have witnessed more than enough degeneracy over those 3 days.

But I'm on here to find someone who is willing to wait and willing to get to know one another and then to be in a relationship and then in the future settle down. First they are going to report it which may be enough on its own to get this sub banned. If not they will brigade the sub. They do that regularly to r/braincels to get them banned also one of the reasons the r/incels sub got banned. Do not underestimate their insanity.

So we need to backup everything here and find somewhere else to go. Really need an "offical" backup place to go.

Nothing happened in the long run but for a split second I was worried, now I just laugh at it because I realize how stupid she was to think the cops would care about her whining about being lied to. Still just a heads up for you dudes

JustAnotherGhosed · 17 June 2019 · Archived copy · Reddit

Just make a tinder or dating profile as if it was literally you: your likes, dislikes, it's entirely your own personality. Nothing about it is fake or untrue. Put out your deepest parts of yourself. Don't talk down to the women, just talk to them like normal people. Don't try to over prove it by saying you want to kill puppies or whatever.

The only change is you use a Chad profile pic.

And it will, once and for all, prove that it's definitely **not** your personality.

"Figure 1 shows updated smoothed graphs (using data from both the How Couples Meet and Stay Together surveys, hereafter HCMST 2009 and HCMST 2017) of how couples have met by the year of first meeting for heterosexual couples. Same-sex couples (not shown) were early adopters of Internet services for meeting partners.

About 65% of same-sex couples who met in 2017 met online, compared to about 39% for heterosexual couples.

The 65% of recently formed same-sex couples who met online is very similar to what Rosenfeld and Thomas (2012; Figure 1) reported for same-sex couples in 2009 using the 2009 data alone. As the pattern for same-sex couples has not changed as much, we focus here on the changes in how heterosexual couples have met since 2009. "

I went another route, is this still of this subreddits interest?

First of all. I've never laughed so much by being on date apps, this is fucking hilarious. I've never learned more about women on dating apps than I did for the last 2 days. And I'm not kidding. I'm sucking knowledge to me. I'm a normal looking guy, but I don't get away with saying weird and fuckup stuff to women normally. Now add that I look like a Chad. I get free passes, I'm handsome and they love I'm different and very honest from the others. (I'm Childish, I wear an Ankle monitor and I'm Bipolar. I'm not kidding you guys it's in my Bio)

I've made fun conversations with hot women in their thirties. And I can line a date up with + 15 middle ages women now in 2 days.

I tried to be badass Chad. Didn't go well

I tried to be Childish Chad. Did pretty well

I tried to be fuckboi Chad. Didn't go well

I tried to be Daddy Chad. Went awesome when you match girls with daddy issues

I tried to be Silly Chad. Went well.

But what went best was when I just said fuck it. I'll be myself I'll use my good sense of humor and silliness and I've made hilarious silly childish conversations with Milf's and they love me.

Can you imagine that. My personality is great right. This has boosted my self esteem.

Hahahahhahahahahahahahahahahahaha

So what I'm asking is. Is it of this subreddits interest to be interested in datalogs from being a chad with your own personality? Or is it not relevant any longer.

My next experiment is to be a therapist Chad And a Female Who is obsessed with Lego and seeking other Lesbian Women. And then I'll stop this. It takes quite some times in the evening.

When you match with a girl who is a 6-7/10 with a personality of 9/10 and you're a 8.5-9/10 Chad then;

Try to write down how someone with a great loving personality would treat another person and then try to aim to text at that level. You might not have as much sexual experience as someone of your age. Maybe after you have texted for 2 - 3 days she can help you learn what a real girl likes from a man.

I'm sure you don't want these superficial dumb girls in your life that Chad's or Brad's hooks up with as your girlfriend 5 years from now. So use this platform to learn.

You can learn from it and it will motivate you to work on yourself and your underdeveloped social skills.

The future of online dating thanks to chadfish

empatheticapathetic · 22 June 2019 · Archived copy · Reddit

I think chadfishing is going to destroy or at least seriously hinder online dating and perhaps dating in general. Throw a bit of leverage back towards men.

Black pill and red pill concepts are mostly conceptual until we see examples and those with a pro feminist agenda use the ambiguity to attack the credibility of these idea.

But AFBB has never been clearer with the examples we now have. Sure there are weak minded men who will believe the weak justification that these are photoshopped, but ultimately more men than ever are going to wake up from this.

The feminist reaction is going to sway even harder than it sways right now, in an attempt to deny the truth and people more than ever are going to be forced to pick a hard side, due to the hard evidence on one side and the hard ideology on the other.

Look at the way people go after Jordan Peterson because he offers a fairly CENTRIST view. By today's standards they attempt to call that 'alt right'.

It's all a Fucking mess. Be glad you are in the know at this point in your life and not later. Maybe you can make the most of it. That means giving up on women, being happy with very low SMV options (where available), finding a situation that works for your SMV (going abroad) or setting up a regular paid interaction.

Also I'll say it again. I hope someone is archiving this shit. Because this will get wiped out soon and the content here is incredibly valuable.

Once women become more aware of chadfish as a concept they'll stop being so open in their messages (and only open about their degeneracy in person with chad) in order to sway social perception and power back to their side. Let's make the most of this while we can.

Why the internet will make things worse than ever before

SomeTurdInTheWind · 22 June 2019 · Archived copy · Reddit

<https://psmag.com/environment/17-to-1-reproductive-success>

8000 years ago one man would have children with 17 women and the other 16 men would have no children. That's right, 100% of the women who had children had them with 5% of the men, the other 95% just died without descendants.

And **this happened in small communities of just a couple hundred people. Imagine now that on-line services give Chad access to tens of thousands of women: basically any woman in his city and even in many other cities.**

That proportion is going to get even worse in the future. It's going to be like 1 man has children with 50 women and the other 49 guys just die alone.

Here you have a couple of Chadfish compilations from this sub:

I'm requesting someone does this at a public place in a city so it makes the news. But get this, make sure the Chad holds a fucked up ideology. That way it'll be mad awkward when they're forced to explain who they where there for

Exposure to radiation can increase the risk of cancer. Similarly, exposure to the blackpill increases the risk of mental illness. The process is simple: chadfishing exposes you to the blackpill, and this exposure leads you to hate society and women. Hatred turns into depression, then apathy, after which you resign yourself to your fate and accept your situation. You are highly vulnerable at this stage, as begin running out of copes to keep you alive. Thus, chadfishing is detrimental to your health, as it increases the risk of suicide, depression and self-harm.

COUNTER-ARGUMENT: "But men do the same"

VirginPrideWorldWide · 21 June 2019 · Archived copy · Reddit

The point of Chadfish is to prove female hypergamy, gay dating apps don't have this problem. Every girl can get a date on dating apps, on the other hand not every man can but in gay dating apps. Women get tons of matches every day on dating apps, a lot of them come from nice men yet they prefer a Chad sexual abuser who's rude and not even that interested over the other thousands of matches just because he's 1-2 points more attractive. Men don't act this way because they aren't hypergamous since they consider most women attractive, women consider less than 20% of men attractive therefore those 1-2 points of superior attractiveness are very important to them.

Women Find 80% Of Men Unattractive, Says Crazy Study

Women Find 80% Of Men Unattractive, Says Crazy Study

Dating apps have reduced the distance between potential partners and made the dating market much more efficient, people are just expressing their natural behavior. Like in ancient times few men are chosen by women for reproduction today. You don't see the same pattern in gay dating apps, every man, even average ones and below average ones, gets a chance on the other hand it is very difficult to date on lesbian dating apps. Women are biologically wired to be more selective therefore they show hypergamous tendencies. It's just nature making its work and technology has finally made the sexual market completely *efficient*. On gay dating apps, everyone gets matches there. I got 40 matches in one day on gay Bumble while I got 4 matches in a month with women, who didn't even write to me - only women can initiate conversations on Bumble - while I got 100 matches in one day with my Chad Fish - this is blatant hypergamy in action. Economic equality (good thing) and dating apps (bad things) have finally allowed women to better express their true sexual nature.

It appears clear that in a dating market dominated by dating apps average men struggle and below average men struggle A LOT to find partners, and this is the case with modern America.

Around 40% of American couples now first meet online

tl;dr

Men might be displaying the same behaviours of the victims of this social experiment but women do it following hypergamous patterns.

Everything you say about Chad, how he is treated, and how you are treated, is true. It is called the halo effect and it has been known about for 99 years. I doubt it has ever been as bad as it is in today's day and age.

The Halo Effect

By [Kendra Cherry](#) | Updated September 25, 2018

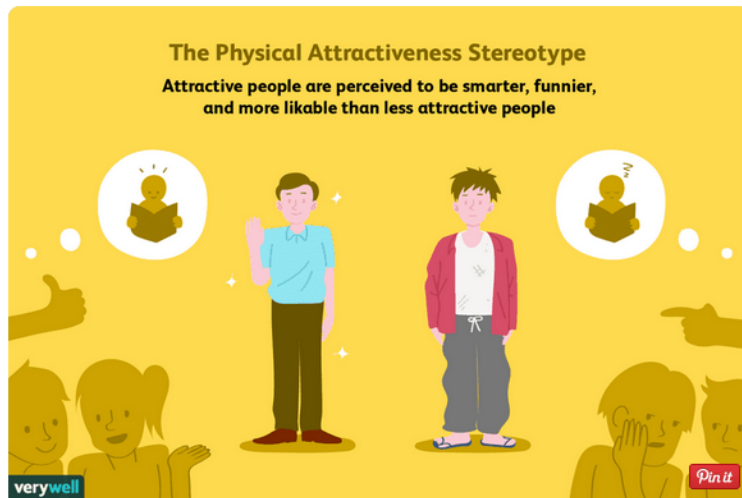

Illustration by Joshua Seong. © Verywell, 2018.

The halo effect is a type of [cognitive bias](#) in which our overall impression of a person influences how we feel and think about his or her character. Essentially, your overall impression of a person ("He is nice!") impacts your evaluations of that person's specific traits ("He is also smart!").

One great example of the halo effect in action is our overall impression of celebrities. Since we perceive them as attractive, successful, and often likable, we also tend to see them as intelligent, kind, and funny.

Definitions of the Halo Effect

- "Also known as the *physical attractiveness stereotype* and the "*what is beautiful is good*" principle, the halo effect, at the most specific level, refers to the habitual tendency of people to rate attractive individuals more favorably for their [personality traits](#) or characteristics than those who are less attractive. Halo effect is also used in a more general sense to describe the global impact of likable [personality](#), or some specific desirable trait, in creating biased judgments of the target person on any dimension. Thus, feelings generally overcome cognitions when we appraise others."
- (Standing, L. G., in *The SAGE Encyclopedia of Social Science Research Methods*, Volume 1, 2004.)
- "In a study made in 1915 of employees of two large industrial corporations, it appeared that the estimates of the same man in a number of different traits such as intelligence, industry, technical skill, reliability, ect., etc., were very highly correlated and very evenly correlated... Ratings were apparently affected by a marked tendency to think of the person in general as rather good or rather inferior and to color the judgments of the qualities by this general feeling. This same constant error toward suffusing ratings of special features with a halo belonging to the individual as a whole appeared in the ratings of officers made by their superiors in the army."
- (Thorndike, E. L., "A Constant Error in Psychological Ratings," 1920)

Chadfishing broke me, thats probably a goodbye

IHopeIGetAnAneurysm · 20 June 2019 · Archived copy · Reddit

New account beacuse I posted in [r/incelfselfies](#) and other personal stuff.

I took the blackpill a few years ago, I'm turning 25 soon, which is definitely the absolute point of no return, but I thought I finally came to peace with it. A few weeks ago I started chadfishing, because my other copes don't work as well as the they used to.

I had some good laughs with the wifebeating Chad Thundercock and some ex-prisoner who got convicted for cp. But then I came around some instagram profile of a guy who kinda looked a little bit like me, if I weren't an ugly, asymmetrical skinny mess.

So I opened a few accounts with him and tried to be as much as myself as I would if I'd want to really meet someone. I had the usual experiences, girls who wanted to meet/fuck after half an hour of chatting, nothing I wasn't used to.

However I started chatting with one match so intensively, that I compleatly forgot I'm catsfishing. That wasn't really flirting we actually talked about real stuff and I told her about actual issues I have... it felt nice. You can comment AWALT and sure I don't really know, what her intentions were, but I can't deny I felt good. If a prostitute is to a real sensual experience, what this was to a therapist, then hookers are the most laughable cope imaginable.

However she insisted on meeting and I remembered who she thought she was writing with and coming back to reality never was that soulcrushing. The real me will never experience that. With all therapy in the world, the best I could hope for would be becoming some humble simp, who makes his peace with his place in the world. I don't want this.

I will send her a link to this post, so she knows whats up, but I will delete her after, I don't want to read a reply.

I will try to hit the train this evening, but if I chicken out of suicide you will hear from me, I guess. But I hope not, wish me luck guys.

I'm sorry S.

Volcelcope · 22 June 2019 · Archived copy · Reddit

I don't think this is so much about rigorously proving something but more about disproving something about dating. When a guy complains about how he can't get any dates he is typically told that he needs to work on himself. That he needs to work on his hobbies, his personality, get a haircut take a shower(jfl). Basically that him being a lonely virgin is his own fault, that he could fix it if he would just pull it together, man up.

When in actuality if he could just add a few inches to his height, his jaw, shoulders (ie things he CANT control) he could be an unshowered, awkward cringy misogynistic, racist and still get dates.

When relationships, sex, marriage stopped being a pragmatic system to provide stability to people, stability to children growing up, stability to society and instead is only about what makes the lizard brain feel good. When this happened there is no longer room for you.

Stats from various sources showing that there are millions of young virgin men all over the industrial world, with low prospects of ever establishing a family, dropping out of the work force etc. I have no trouble at all imagining that this will lead to increased radicalization, violence, instability and systems buckling as they run out of motivated worker drones. But I bet society will dance around the problem and only pump out more propaganda shaming young men for not "manning up" .

Would it be possible for catfish to report pedophile roasites going for underage chadfish?

pajeetinthestreet · 17 June 2019 · Archived copy · Reddit

Like in that Dateline TV show, you can create an account, match, pretend to be underage. Make sure they observe that fact (and note/comment on it).

Ensure they show willing intent and make a move to do something (ANY form of intent counts). This can amount to something called "Conspiracy" which is usually slapped on to other charges, (and also mention this when you tip them off because then the prosecutors (who usually just want convictions) will know what they can do, I honestly doubt the competence of government workers so we should feed them the case).

Also NOT report them to state prosecutors who are usually gynocentric women worshippers, report them to the FBI or federal agencies. State prosecutors will do nothing.

Name the charges they can use in the FBI tip (or whatever) you send. My father works in going after these kinds of people. If a roastie used an electronic device to send nudes to a 17yo or say she will meet up with him with a definite date, sent any form of cash transfer, engaged in a sexual conversation: she is eligible to be marked as a sexual predator.

Ensure we read up on the rules of "entrapment" so we dont break any rules doing this. If someone can pull this off and get roasties lives ruined forever, I will salute you.

Thank you Chris Hansen for this idea.

If there could be a real-life Chad that uses his powers for good and basically does what we do here, but is able to prove who he is and what not, like with video calls or whatever, to see how much crazy shit he can get away with.

I read a book once where one of the characters was rich and would bring girls over to his house and make them do insane stuff in order to degrade and humiliate them to prove that they were willing to do anything in order to have a chance at getting with him and being able to use his money. The only thing I can remember the character doing was making two girls shove hard boiled (peeled) eggs into each other's asses, make them push them out and then feed them to each other.

If this could be recreated, that would be an amazing thing to watch unfold.

Catfish challenge: create a profile of a single mom that can attract all the good men that are missing

SemiLoquacious · 20 June 2019 · Archived copy · Reddit

It really shouldn't be that hard for a single mom to attract "a good man." Let's prove to all the Stacies that, yes, a single mom can get a good man.

Rule #1: don't put anything about being a single mom in the first paragraph. Seriously.

Rule #2: she has to have more going on in her life than being a single mom. Give her profile hobbies, humor, and interests.

Eventually go on to say something like, "I have 2 kids. They're very smart and I keep them well behaved. I can't go out as often as a 19 year old tho [Yes, put that word in there] but I will not just bail on a date so I can watch the kids, but if I did that then the next date is on me. One of them wants to be a doctor. You don't have to meet them right away, I won't rush this. The baby daddy has his time and place in my affairs, I doubt you'll ever meet him."

Obviously, this would be using up almost all the space tinder limits you for a profile but be real, tinder is a hook up app. That might also be going on about kids too long for a profile on a dating website. Balance it out by going on for a while about hobbies and upbringing.

But if you want the added challenge of getting a "Good man" off tinder, go for it.

Think of it like this. When you were growing up, you had friends growing up with step dads, I guarantee it. Your friend's single mom had used social connections, work, or confidence, to find her prince charming and SHE DID NOT USE DATING APPS. She probably also had interests outside of weed and reality tv.

LASTLY, we don't want to ruin these men for a potential future relationship that has potential. If your catfish profile leads to planning a date, tell him what's going on and link to /r/chadfish. This is men we're dealing with, men who use logic above emotion. They have a right to know they were catfished instead of just being ghosted.

Request: Homophobic Chad

In our current gay-crazy world where homosexuality is elevated above heterosexuality, 11 year old drag queens perform in gay bars, drag queen story hour entertains kids at libraries across the land, and *12 year old children* come home to tell stories of classmates *who have come out as gay, bi, and trans*, perhaps the worst thing that any man can be is homophobic. I am an older man (61 years old) and I have had young women in their 20's refuse to date me: "I don't date homophobes." I have heard arguments that no homophobic man will be able to get a date nowadays.

Well, let's see if that's true. That's see if Chad can be a homophobe. Of course all the chicks hitting up on him will be the ultra SJW Pride Crowd who think male homophobes are disgusting, but hey, let's see if they are willing to make an exception for a homophobic Chad!

Have him bash faggots, dykes, and trannies, something like that.

PUBLIC SERVICE ANNOUNCEMENT: Due to the increased attention and scrutiny of this subreddit we have decided to up our mod team, be inclusive, and make some changes

thanosisright188 · 22 June 2019 · Archived copy · Reddit

FIRST AND FOREMOST, we do NOT have an official Discord server. That server is run by some random guy who made it of his OWN intentions and is not affiliated or supported by anyone on the moderation team.

2. The moderation of this subreddit works hard to remove anything that violates the sitewide rules of reddit. We do NOT call for violence or encourage it in any way shape or form. Violence is wrong and yes, its true that women will fuck chad even if he is violent but we should not strive to be violent and instead be a nice caring person whom a woman will love and appreciate once she has a couple of kids and requires money.
3. In order to adhere to the rules set by daddy Spez and reddit administrators, we have decided to revamp our moderation team to include a new diverse array of people. Please welcome our new moderator u/erefishyfishy. She is a woman (married so dont try anything) and strongly believes in the purpose of this subreddit and supports us. Verification is in her profile. Please do not harrass or send her any death threats.

We have also recieved notices that this subreddit contains Nazis.

Much to the dismay of our opponents, we do not condone Nazism or racism of any form. Our mod team is pretty diverse. We have only one one white male, two white people in total, and the rest of us are ethnic. We are inclusive and accepting of all races. We do not believe in discrimination based on race or skin color because that is what the woman who we are exposing do. Race and skin color is an inherent uncontrollable quality such as height and face and hating people for that makes you a bad person.

We are also not an incel subreddit. Yes there is some overlap but does not mean this subreddit is incel exclusive. In fact, as long as you arent an annoying spammer you wont get banned (unless you break sitewide reddit rules). We even welcome brigaders from threads like AHS and inceltears. These experiments are for us all to enjoy, cherish, and to learn from.

Taht is all. Any questions ask below

My experience chadfishing in the middle east

iasli · 13 June 2019 · Archived copy · Reddit

tldr: just read the last long ass paragraph

I hope to offer a unique perspective since I noticed most chadfishes were in Western countries. I'm pretty bored right now so I will go into detail. My goal here was basically to "debunk" the cope that Islam is our only hope lmao. My bio has height in it and something like "if you're not down to fuck gtfo".

When I started off I didn't know what to expect. Lots of white people here so that was expected, but I didn't know what to expect from the arab/muslim girls.

I started off getting lots of likes right away but no quality matches. Issue here is that 99% of the accounts are obvious fake accounts, so it's hard to find real people in the first place. In the beginning most ignored/had little convo and kinda died off. A bunch weren't down to hookup (so far mostly white girls). The ones that I asked to meetup ghosted and stuff. Pretty slow start.

Something that I learned at this point is that arabs/muslims don't use this app because they are scared of being caught. The ones that do don't put pictures where their face doesn't show but I can tell from the name.

Next thing I get a match from an arab girl. I'm like ok this is interesting let's see where this goes. She says she isn't down to hookup etc so I keep dipping on her and saying bye this is a waste of time. And every single time I say bye, she comes back and keeps convo going. She said she's given handjobs but never had sex. Don't remember how it lead to this but eventually she asks for snap and I say I don't have any social media but if I make a snapchat will it be worth my time, to which she says yes. I make a snapchat real quick and send it to her. She sends a request and sends nudes literally right away without me even saying anything to her on snapchat first. Eventually convo gets boring and I ignore her, couple days later she sends more out of nowhere, then she unfriends me on snapchat (jfl). This was first interaction with an arab (muslim as well) foid.

Another match I had during was from another arab muslim girl who was dtf. I straight up asked for nudes but she sent semi nude teases, no actual nudes. This one was a lost cause because she eventually asked me to get on call for verification purposes because I told her to come over for sex but she was probably sus'd out.

Then more streak of matches and me being blatant just asking to fuck and some ghosting some saying no. More ghosting than I expected, I am not using a gigachad but I'm using your everyday chad. White girls were very uninterested for the most part. The ones that were most interested were usually brown (indian mostly) girls and some arabs.

Which leads to my next interesting match, an indian girl that lives abroad and is here for vacation (that was my larp as well). She was really interested and stuff texting a lot and she kept saying not down to hook up etc until I eventually pushed her enough to send me pics on snapchat. She refused to send nudes to she sent teases. She was very insistent on no nudes but I kept insisting and she did lmfao. After we tried to setup a date so I can send her somewhere and prank but I one of us ghosted the other and never texted again.

The next interesting one is arab and she admits she's a straight up hoe and she said she's out of town right now but when she's back we're fucking lol didn't text her much maybe i'll text her when she's back.

The last interesting match and most recent one (still ongoing) is the BIGGEST FUCKING SUIFUEL EVER. I matched with an innocent, virgin girl that wears a hijab (and yes I actually believe it based on the convo we had). This one was like 100% insistent on her just trying out the app/looking for a potential non sexual relationship. We literally had a whole debate on premarital sex (me larping as a jewish chad but I'm actually muslim). I thought she was a lost cause but eventually we exchanged snaps (with no pics expectations). She asked about my low score and I said I use this snap for the hoes lol don't judge me. Then I start larping as a very emotional chad that is just a fuckboy on the outside and stuff. I drop lots and lots of blackpills calling all women whores and sometimes even

calling her a lowkey whore. I told her if she goes to a western country she will be the biggest slut and she was agreeing with everything i say jfc. She said I am really horny and stuff just been keeping myself under control so far. I also tell her I have autism and BDD (excuse to not send selfies lol) and she was really caring saying stuff like i wanna help u through it blah blah. Then I start saying shit like I'm really horny i wanna fuck u and stuff like that and she reciprocates but she says she can't because of religion blahblah and i keep shoving it in her face basically. Eventually we start "sexting" but no pics so far and I tell her what would u do to me and she describes in detail how we'd hookup and stuff. Eventually, she deadass says "i love you" out of nowhere keep in mind this is 2 fucking days after matching. She says you're not like other guys you're a really good guy I never thought I'd be saying this to a jewish guy blahblahblah. I didn't know what to say back so I just said i love you back lmaooo and she ate that shit up. She starts calling me babe and stuff and keep in mind never sent her a snap just sent her more selfies of the chad that aren't on my tinder profile. Anyways long story short she masturbates while texting me and describes her orgasm in detail and her whole body shivering and stuff just thinking about me. This is the biggest suifuels as well as me saying dumb shit like calling her and all women whores and her thinking it's funny or whatever. I also ranted about how ugly guys don't get women and shit and women are cunts because they ignore ugly guys when they text them and she said she does the same. I also asked her if I can jerk off to (fully clothed lol) pics she sent and she said yea for sure. I kept pushing for nudes because I thought if I can get nudes out of a hijabi virgin my chadfishing would have literally peaked and I can kill my fucking self knowing it never even began. She doesn't break and send nudes BUT she sends a pic of her in a really short dress as well as a pic without her hijab. I felt terrible after this because I'm also muslim so i took a step back and realized it's super fucked up so I told her u don't have to send anything u don't want to or whatever but she said no i'll do it if it makes you happy. she said she never thought she'd do this to a guy she has never met lol. one thing I just remembered she said is that she called herself verbatim: "a whore that hasn't whored yet". imagine being her future husband he would literally never know about this he would think he got himself a nice cutie virgin but fucking nope.

so yeah it was super eye opening especially with the hijabi. main takes from this are:

1. all women are whores or have a whore inside them that they wanna let out
2. 0 hope in muslim girls
3. never believe a girl that says she's virgin but if u actually think she is, then rest assured she is losing it very soon.

Should I kill Chad or what?

mgsgamer1 · 16 June 2019 · Archived copy · Reddit

Got a mother of two that sent me nudes the first day we started talking. I'm basically using her for my own pleasure and don't talk much because I'm "busy". Supposed to meet next weekend. Obviously I'm not going to meet her but I'm torn between Chad just standing her up or Chad not showing up and then myself, using a different fake number, texts her a few days later saying that I'm Chad's best friend and he died in a car crash on his way to meet you. He called me and told me to tell you that he's sorry. It took me a few days to crack his phone and get your number.

Then casually mention the nudes, or something like that.

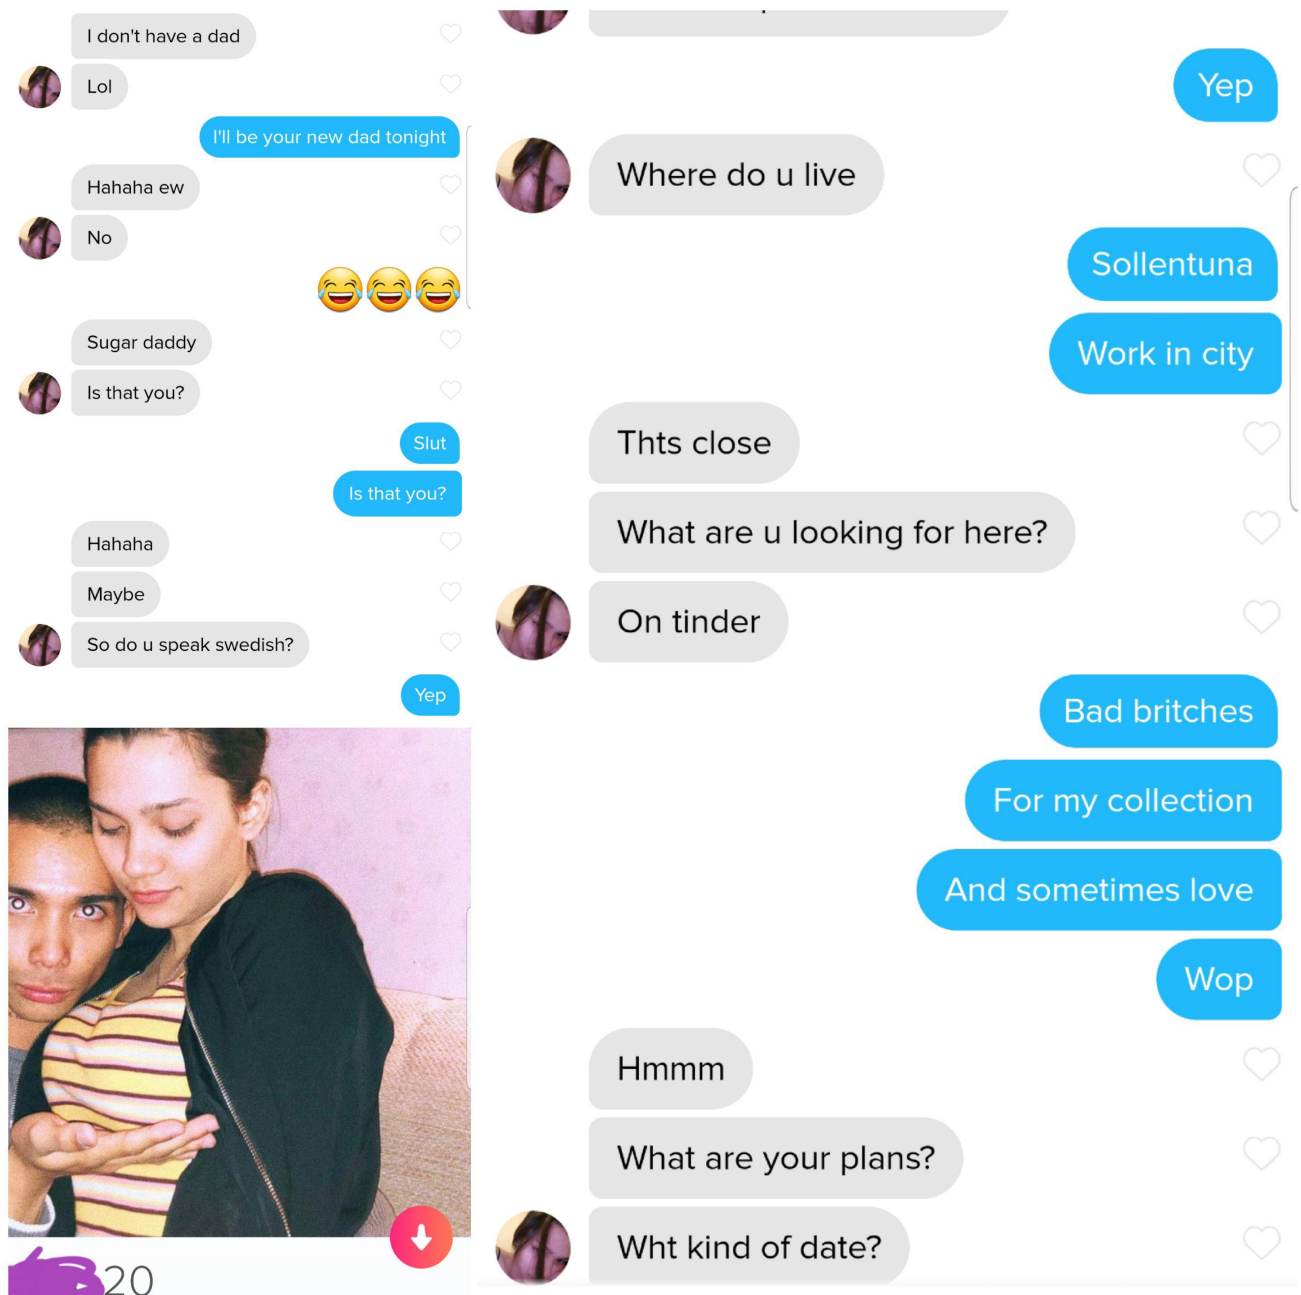

Thoughts? Better ideas?

Has anyone ever tested the nationalitypill?

Manletangelo · 19 June 2019 · Archived copy · Reddit

Probably the purist form of confirmation of the racepill was when that guy edited pictures of himself to change his skin tone and then hopped on tinder to see which version of himself would get the most likes... no prizes for guessing which version of himself won. (I would post a link to it, but I can't seem to find it again, I think you all probably know what I'm talking about)

However, for a good while now I have speculated about the possibility of the nationalitypill - the idea that even if you look exactly the same in two scenarios, being from a higher status country also increases your likes. So for example, have a brown guy be from India and then the same brown guy be from Egypt. I'm 99% sure the profile from Egypt would get noticeably more matches than the profile from India.

What do you guys think?

Lets science the shit out of this- Mark Wattany

Pirateangel113 · 9 June 2019 · Archived copy · Reddit

So i was thinking about how we could be more scientific in the sub.. We need to be as scientific as possible because it will only be a certain amount of time before girls start catching on with fake profiles. Type of things i was thinking about 1.) $(\text{Number of matches} / \text{total number of swipes}) = \text{probability of getting a match}$ 2.) $\text{number of replies} / \text{total number of swipes} = \text{probability of getting a reply}$ 3.) $\text{number of replies} / \text{total number matches} = \text{the probability of getting a reply from some one you are matched with.}$ 4.) $\text{amount of women who agreed to have sex} / \text{total number of swipes} = \text{probability of having sex with some one on tinder}$ 5.) $\text{Amount of women agreed to have sex} / \text{total amount of matches} = \text{probability of having sex with some one you matched with.}$ 6.) $\text{Amount of women agreed to sex} / \text{total amount of women who replied to you} = \text{probability of having sex with some one who replied to you}$ Quantifying our results will make our lives easier when comparing results of different accounts and seeing which ones are better. Any way i am not a math genius just took a class in probability. If you have any input into what type of things or probabilities you would like to see just tell me. Also if my math is wrong in any way please correct me..

A Note on PoF

record1488 · 17 June 2019 · Archived copy · Reddit

PoF is the best site to chadfish on. Why?

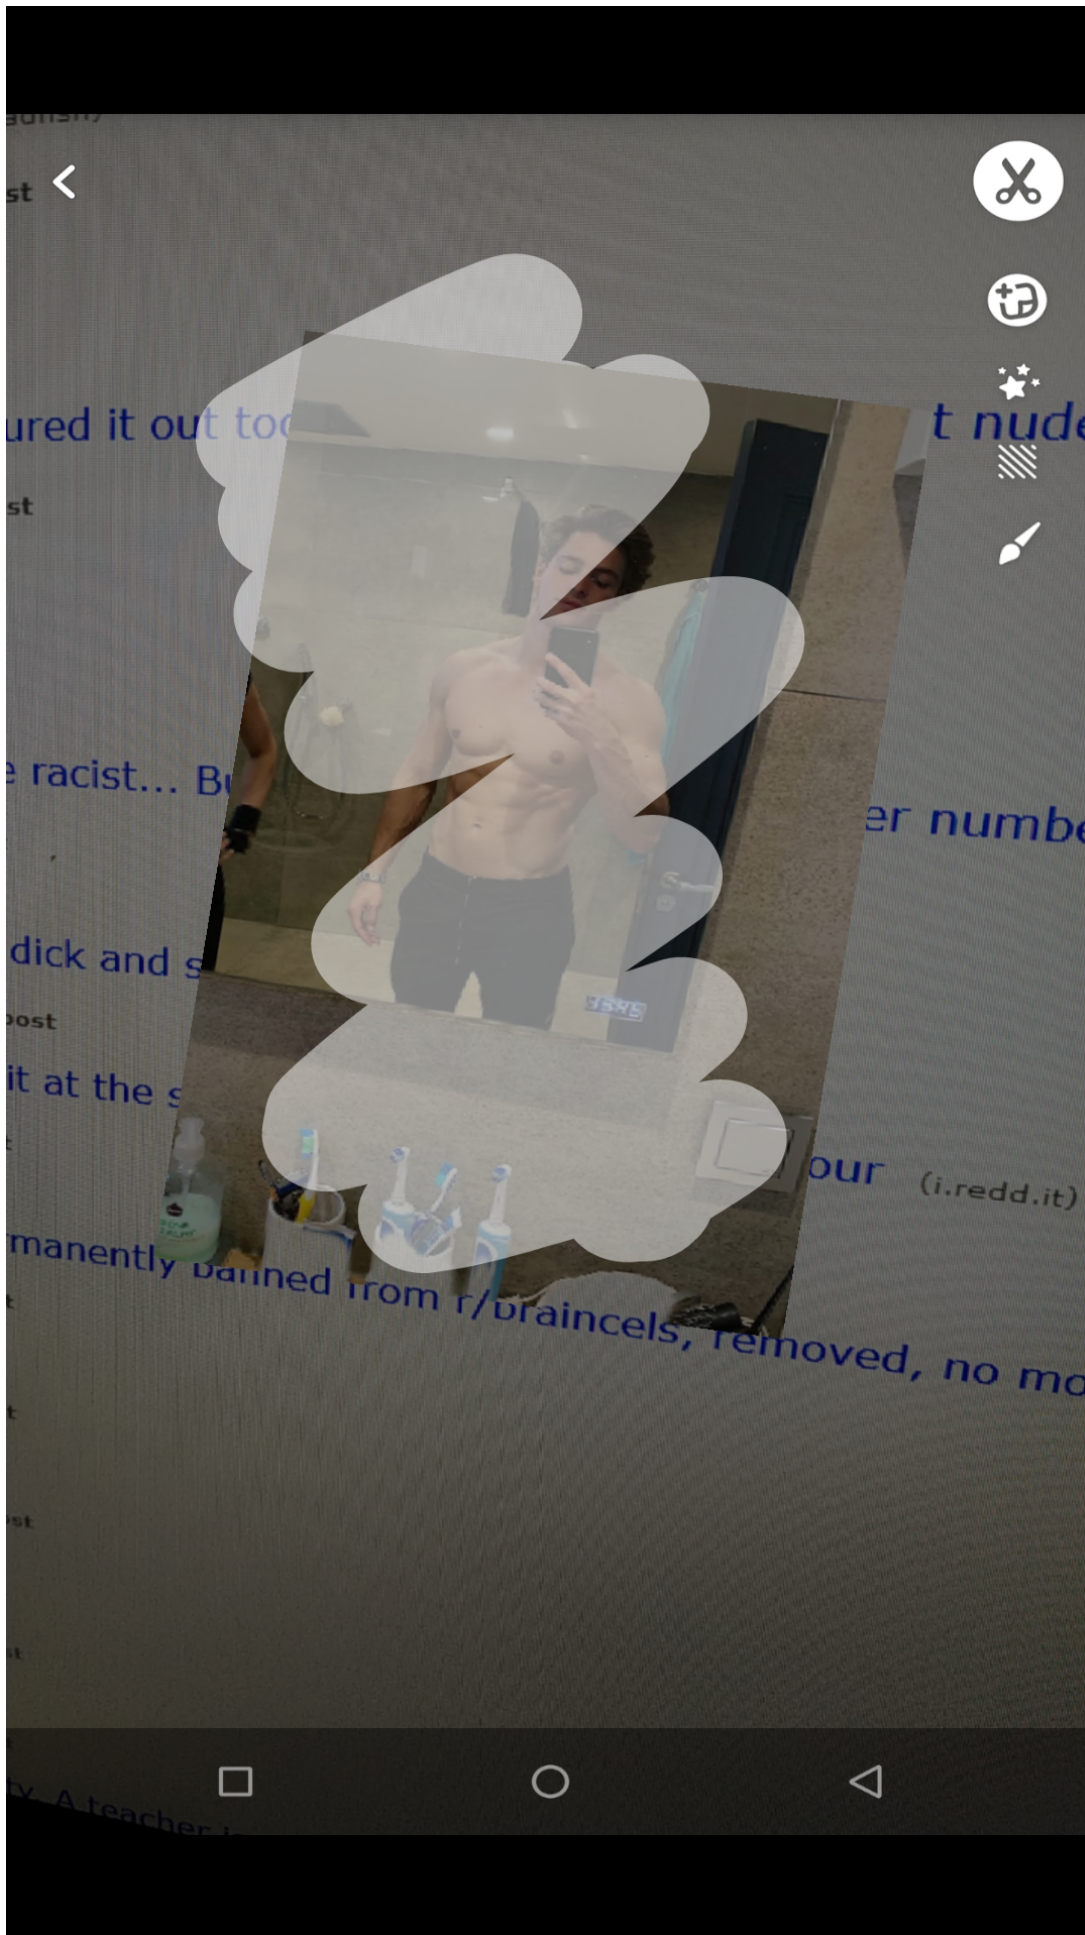

1. The women are fall into two categories: single mothers/minimum wage thots looking for a bailout/betabux, and sub 2 women looking for a mate. Regardless what category they fall into, these women will do anything for chad. Why is this good? Cos fatties/single mothers are more pliable to chad and therefore easier to arrange dates with n flake on.
2. PoF is also great cos its settings enable you to remain hidden, thereby improving the survivability of your chad account. Go to mail settings and change to only upgraded users can initiate first contact. Then go to edit your profile and click to hide your profile. Finally head to mail settings and change it so users cannot see that you viewed their profile.
3. PoF has a terrible history of deleting accounts - of my 4 chadfish accounts on there, none have been deleted by the administrators. I deleted them all myself after I grew tired of being a toxic little cunt! PoF rarely deletes or even investigates reports of misuse on the site.
4. PoF requires no verification! Unlike bumble, there is no photo verification or mobile number to sign up. You just need a throwaway email. Use yandex or hotmail.
5. PoF doesn't have GPS/location feature. You simply type your city in and start chadfishing! No VPN needed! I have sat in my bedroom and stood up roasties in another country on the opposite side of the world on PoF. It's systems are shit! Use that to your advantage.

So, heres the profile I'm running. I have the age range set to 27-34, and using my current location of Wellington New Zealand to cast my net.

In the comments, I'm going to post the name, age, and a summary of the bio of matches I get. My request is for you to go after a specific target. They tend to write shit like..."Not here for hookups" or "Looking for a dad to take care of me and my beautiful child" on their bio. These are women that are experts at locating betas, control them, make them miserable

Those type of women tend to appear on r/WhereAreAllTheGoodMen.

The ethical question aside, Chadfish has yielded some brilliant data. Any logically thinking man would have to swallow the blackpill upon being exposed to Chadfish. This isn't incel whining; it's empirical data. The Chadlites over on bodybuilding forum know this to be true. They get it.

I think we need to start thinking about how to get people talking about this once we get the inevitable soy-chop. The pea-brains in MSM will dismiss it, but the popular red-pillers will have a difficult time with it.

[Request] Twilight Saga inspired Chadfish

Real_Nigga_by_Trade · 22 June 2019 · Archived copy · Reddit

This will be hard to pull off and will require nuance.

Make two accounts with opposing views. E.g White supremisist Chad and a pro BLM Chad.

Match with the same woman and see how flexible her morals are.

The Chads shouldn't mention their views outright or the girl might pick up on it.

So for example the first dude might make racist jokes about blacks and he encourages her to go along with them.

Then the other guy has a regular convo but at the end asks her to attend a BLM rally or a community event or some shit.

You could straight up just make the dude black. It's flexible.

MEGATHREAD: Discussion/Off-Topic/Requests

LegendofPajeet · 14 June 2019 · Archived copy · Reddit

With how popular this subreddit is starting to become and a consistent online userbase as well as occasionally being visited by normies we are deciding to make a megathread dedicated to general discussion, requests, and occasionally off-topic (but please minimize that). As the sub grows more and more popular we will be flooded with more requests and occasionally outsiders.

Outsiders are welcome here if they obey the rules and remain civil. If you do have something you want to question or ask about the sub or its members, please do so in this thread. Do NOT go make your own thread and pollute it with your nonsensical arguments.

This thread is also available and open to all requests. However we encourage that instead of asking for requests, that you do it yourself for both the learning experience and how it will open your eyes to a whole new perspective.

If you need help chadfishing, this is also a good place to ask. Use this thread as a point of reference too.

[Request] Nuclear blackpill to end all blackpills: a Chad who playfully confronts women on the blackpill & dogpill, finally getting them to admit the truth.

Forrest-93 · 22 June 2019 · Archived copy · Reddit

Explain to them the blackpill as Chad. About how study's show women find 80% of men to be unattractive, polling collage Tinder users found that 250/300 women who tried tinder got laid using the app where as less than 50/300 collage men were able to manage the same, in the past 10 years (since the rise of social media & online dating) male virginity under 30 skyrocketed from 1/10 to 1/3 (while the virginity rates for women remain more or less unchanged) our mitochondrial DNA shows us that a more women than men reproduce, this mirrors the polygamous mating behaviour of all other mammalian species, etc.

I'd also like to see a Chad to playfully confront women on the dogpill. Mention that you know about all women's secret attraction to animals in general, dogs, horses, werewolves, vampires, bigfoot, etc. It's not that women evolved to be sexually attracted to dogs, it's more an unintended side effect of women having more mental & fluid sexuality (the ironic catch 22 of a woman's lower sex drive is that they have a higher threshold for being turned on by physical appearance, they are also turned on by less tangible mental qualities like dominance & status). Dogs unintentionally trigger the same buttons for what she instinctually wants in a man, a ruthless predator that she hopes to tame to protect her and her offspring from the cruel savage realities of life in the wilderness, her pussy doesn't know she's no longer part of the foodchain. This is why I can't help but buy that the dogpill must be true on some level, it makes too much sense and makes sense of all these many **coincidences...**

thedarkgrind · 23 June 2019 · Archived copy · Reddit

As a 5/10 guy(as rated by /r/truerateme), I got 30+ matches in less than a day in Phillipines, and a lot more following few days. Similar in Thailand. (albeit, I had age set up 29 that I couldn't change, I'm actually 22, that may have affected outcome).

No bio. 90% of them were interested in meeting up when I straight up asked them after the usual "hey", also interested in watching a movie with me in my "hotel" room and cuddling. Many sent nudes, and had few showing me their breast/body on webcam video chat. Their attractiveness ranged from below average to above average.

Are they actually sexually attracted to me? Many skeptics would say they are merely interested in betabuxxing to escape their country, or as a status symbol.

How do I make my tinder profile look real?

WaegukSaramx · 13 June 2019 · Archived copy · Reddit

I'm no chadfishing, yet. I'm doing experiments with my own photos to see how well I'd do in other parts of the world, mainly asia.

Anyway here's my question: I have tinder gold subscription. It allows me to set up my location anywhere in the world and then I always have my distance set to 'hidden' since those chicks don't wanna know I'm 9000km's away from them

I know I'm not more than a 6/10 with my current looks, but I think I'd get **slightly** more matches if I actually was in the specific country and it said "x is 10km away" on my profile instead of it being hidden.

Is there a way to spoof my location making it say "10km or whatever away" instead of having to set my distance to 'hidden'?

Yes, it's very demoralizing and amusing to see how easy Chad has it, and to see the true nature of all women. Yes, seeing the Chadfish posts and confirming the double standard that women have is hilarious.

But this doesn't mean you should just give up and remove yourself from the gene pool just because Chad has it easy. Yeah, no shit, life is hard and completely unfair. This isn't a new revelation. You might have to **WORK** a little bit to find a girl. What are you gonna do, cry about it? Don't just let yourself go and give up like a little faggot because of this. You should still work on self-improvement - looksmaxing, moneymaxing, personailitymaxing - and find a girl (and eventually children) who will make your life fulfilling.

Know what women are truly like doesn't mean you have to blackpill and rope. It just gives you an advantage when pursuing one.

Scared to attempt Tinder as I have only my desktop device for this (my phone is old as fuck), and already have my main account on there that has a few matches I'm still talking to. So I don't know if Tinder will track my PCs ID or something and see the two accounts registered on that same ID then proceed to ban both.

Bumble seems to be my only option but that's stuck to my boring small country. What the fuck! Need help, if anyone knowledgeable can provide some insight. A TL;DR of my experience Chadfishing over the last week.

ChadThePsychopath · 22 June 2019 · Archived copy · Reddit

1/3 Women were willing to comprehend, accept and accomodate for a Chad who is racist, misogynistic, psychopathic, creepy and shockingly criminal.

Racist, misogynistic and psychopathic scripts (the holy trinity of a terrible human/personality) can be succesfully used for Chadfishing experiments and the results of said experiments can be repeated ad-infinitem. There are an endless amount of women who are simply looking for the highest titer of genetics to mate with, nothing more, nothing less. Personality does not factor into the equation.

Back before the internet, or more arguably, Myspace and the alignment of social media apps that centered around FACES women were forced to find a mating partner that lived within their vicinity, forcing them to accept mediocre looks and settle for secondary charecteristic, e.g. personality,status and money.

Today, they have access to the best looking men on the planet, and sharing the best looking men is obviously better than being monogamous with a sub7 man. When the goal is to procreate, then multiple impregnations by a 8+ man is more than acceptable and preferred to the 2nd option dating sub7's who have tainted genetics.

These experiments can be recreated in 1/3 of women, and because of the magnitude of 1 in 3 there can an endless number of completed experiments that confirm the importance of looks.

I’m fucking pissdd I’m not going to lie. I literally want to hermit, fuck society, fuck women and just watch the whole place burn. I wouldn’t bat an eye if I saw a woman struggling and needed help. Fuck them.

This is understandable considering how lightly any legitimate organization has to tread in this day and age. Of course some will lie but I think we have the potential to get a closer to honest answer than anyone else.

We could use this data to establish a bell curve and find what the true, current average for age 18-30 is, or we could do a graph with X as age and Y as number of partners and see if it increases with age or if it's higher for younger women.

We are uncovering something great, let's get some real data!

Truecel vs "Femcel" fish

CriminalScum2505 · 22 June 2019 · Archived copy · Reddit

Thought it could be interesting to do a side by side comparison of the experience an ugly man has on dating apps vs the experience an ugly woman has.

The key here I think is for it to be a legitimately ugly man, since I genuinely believe that Stacy's will match with him purely to insult him. With average / below average men, I'm sure she won't bother.

I already know of this happening quite a few times, so it's not purely presumption on my part.

Chadfishing gimmicks have to be extreme

ActiveDivide · 22 June 2019 · Archived copy · Reddit

Telling a black girl you don't like Mexicans doesn't mean anything. Tell her you are on parole for burning a black church or got caught planning some mass shooting lol. You saw the Dylan Roof shooting and just got caught up in the moment but you're paying off your debt to society now. Same goes for white women. If they want to fuck you they don't care if you don't like somebody else. Insulting a woman or opening with a sexual one liner is always better no matter who you are. Whatever your gimmick is, it needs to be extreme, not that long ago, and you shouldn't go out of your way apologizing for it.

The pedophile thing is great. Those women need to be made celebrities.

"Chad"fish experiments with a guy with perfect body/frame AND average or below average face?

thedarkgrind · 23 June 2019 · Archived copy · Reddit

Face is a lot more important, but it would be interesting to see if gymmed up body(aesthetic, not beefy roided up, shirtless pic) with average or below average face would get more attention and women interested in one night-stand.

I am currently unable to perform this experiment. Is anyone interested or done it before?

Any good pictures?

CHADFISHING GOALS

Steve_Wiener · 15 June 2019 · Archived copy · Reddit

Gentlemen, why are we chadfishing?

I see a lot of chadfish endeavors here just to confirm the blackpill or see how far girls will go for chad. This isn't doing any good, it's almost like self-abuse for us. So I propose we start chadfishing to stand foids up or otherwise scam/harm them.

Let our efforts not be in vain. Through the power of memetics we can strike back at this world.

Thank you

JBW bros, you can mog Chad in east Asia even if you look like retarded skinhead...

just_give_me_noodles · 15 June 2019 · Archived copy · Reddit

Long story short I posted here a while ago how I got more matches with my real account in EA than with Chad lol...reason? You named it, I simply look whiter than the chad.

Here's very old pic of me that i used on my real account, where i look like redpill-maxed retarded skinhead (btw - both photos are small since i can't find a way to save the pics from the app, i only can save the thumbs):

1. retarded repilled skinhead (me)

<https://i.imgur.com/RzT9khF.jpg>

2. sexy jewish chad (still got 4 times more matches than him lol...):

<https://i.imgur.com/4336ZwH.jpg>

and I am NOT bragging about it, rather regret i don't live in one of those places neither speak the language nor have the self-esteem to speak to any of the matches anyway. But hope this can be of help to someone! cheers.

Can we agree location plays a HUGE role (I know...not good fit for this sub but...)

just_give_me_noodles · 19 June 2019 · Archived copy · Reddit

But those bastards banned me from /braincells , so i can't post this there (unless you give them "suifuel" there they ban you always).

So anyway, in my case I'm from southern europe and have travelled to southern eu, eastern, and dubai (yes even worse). Going on fb now noticed some interesting things that may highlight how pivotal location is. In other words: just spent some time browsing friends of friends who are from sweden...aside from the obvious: better average quality (way better than what you see in italy), many were single and many had "interested in men" on profiles, which is unseen when i browsed my surrounding cities, leads me to think many women over here are closeted lesbians. Not to mention how 90% over 25 are married, as i am getting very old in late 20s can't hit on 18-19 anymore. So i am thinking changing location can do wonders?

and on topic: do you always chadfish in america or try other regions? what are the results?

In addition we should get other sibling subs to make the switch too.

To Blackpillers: The end result will always be women losing their rights. Trying to appeal to normie ideals is a waste of breath.

rapthrowaway1120 · 21 June 2019 · Archived copy · Reddit

The end result of all of this is that women lose their rights. To vote. To choose who they have sex with. To choose which fetuses they abort. They simply cannot handle the responsibility. And their choices are negatively affecting society. ***All of this is demonstrated perfectly with Chad fishing.*** How can you on one hand demonstratively prove their ridiculous and arbitrary standards but on the other hand deny the simple truth. Never forget the end goal men must unite and understand the one in final truth: **women's rights or a mistake.**

I've been blackpilling normies for years now. If you understand the blackpill then you also understand that it's hard for normies to think forwardly. **There isn't a great inventor, thinker, or philosopher who was a conformist normie.** Normies always try to project their flawed morality on you. **Do not oblige them** with endless debate. They want to thwart any actual progress with speech control. Normies are very good at inducing never-ending debate even on topics that are already well understood like the blackpill. Forget they exist and push on.

They say this sub doesn't prove anything

paco321 · 23 June 2019 · Archived copy · Reddit

Normies say this sub doesn't prove anything because it's just a fringe minority of women who are willing to have sex with all those chads with ugly personalities. While it's true that not all women are going to tolerate insults, rapist chads, criminal chads etc... The fact that women who do tolerate that just because it's a chad says a lot. Mind you, this is chad actively trying to be the **WORST** human being possible and **STILL** he can find a woman willing to have sex with him on tinder in like an hour. Now imagine if chad wasn't trying their hardest to have the worst personality and actually acting like a normal person, the number of women he could get would go up significantly. Now imagine if chad actually tried a little bit to have a "good personality", the amount of women willing to have sex would skyrocket. Almost every tinder match could result in sex. That's how easy it is for them, whereas very ugly men could have the best "personality" possible and still be rejected by all women. That's the point of chadfishing, not what normies think it is.

How do you guys cope?

locomotronn · 23 June 2019 · Archived copy · Reddit

I'm becoming really apathetic lately. Nothing can save me. MGTOW sort of gives me some coping mechanisms in order to keep moving in life.

I understand women aren't everything, but this is beyond that. I feel cheated. I been called good looking my whole life, and have had low level foids approach me. But this is another level.

I am at the point where girls consider me a sexual partner, if I jump through some hoops. (Think red pill), yet not enough where I can be myself and still get pussy. Basically it's like "yeah, you're good enough as my backup, but I'm fucking chad first".

I'm just pissed that life is this unfair. I'm like a winny little kid but it's the truth.

What makes this worse is thinking of all the time I wasted trying to become better for women. I genuinely thought chicks preferred a "powerful" man. I realize as long as that's to betabucks it's true. This feels a lot worse than when I first swallowed the red pill... I guess because this one has no cures... it's just pure reality... red pill gives you some hope so you feel good.

1

UPVOTE

Has anyone experimented with reply times?

bookloverphile · 23 June 2019 · Archived copy · Reddit

For example, using the same texting messages and techniques but using different pictures. Use a beta for one profile and a chad for the other. Id be willing to bet your average reply time would be much shorter for chad. I've noticed from my experience ill send 2-3 messages to a girl on tinder over the span of a day and have no reply. But as soon as i send that 4th message that says "im no longer interested" i get an instant reply saying "ive been busy at work all day and i need someone more patient anyways". Kinda funny actually.

BazineNetal · 23 June 2019 · Archived copy · Reddit

I made my chadfish account and immediately started getting attention. A couple matches in a few hours. Interestingly enough from thirsty older women and now folks closer to my characters age.

Out of curiosity I made up a girl as well. The response was insane. Loads of dudes blowing up the inbox. Is this what it's like for girls online? Am I competing with a dozen different dudes at any given moment? I used to think a girl was just ignoring me, but now I think it's more likely that she's just texting other dudes

Anyway, the chadfish experiment continues. I'll prolly start saying some more whacky shit now that they have taken the bait. I'm surprised though at the lack of interest. It seems women just in general don't reach out first, even with a pretty handsome guy. How is a regular dude supposed to make it ? My eyes have been opened ... I'm never going to be the same

I never thought of myself as an incel, but after seeing how these Chads have it, that's not only easy mode that's basically a fucking tutorial, I mean if you add up all the time I've thought of the right thing to do or say, that's a newborn hitting puberty for you.

Thank you to all those so called "creeps, dangerous and women-hating incels" for showing me that a Chad who might as well be talking in a different language while scratching his balls will easily get laid meanwhile I need to calculate everything thing I do or say for maybe, just maybe end the night with a kiss.

To lurkers: This sub represents why women shouldn't have rights.

rapthrowaway1120 · 18 June 2019 · Archived copy · Reddit

I know, I know. Half the population losing their rights sounds impossible. It's chuckle-worthy even. Trust me, I myself laughed at the notion.

Our brains have evolved to reward us when we are in the presence of female companionship. This is an obvious device/adaptation designed to ensure reproduction. This mechanism gives us **the most** pleasure and is the *sole* reason most men even bothER getting out of bed. Sexual gratification **WITH** *real* female companionship is literally the beginning and end for all of humanity.

Pretty intense, huh? Now factor in that women have sole control over this driving force. hER body her choice, right? They are the ones who decide who gets sex (*real* sex being companionship, not mere release). This realization is why I always encouraged the spread of the **blackpill**, not it's auxillaries. Looksmaxxing, gymceling, Chadfishing. If you do any of these things you are admitting defeat. **You're admitting that women have arbitrary and supERficiality requirements for men to get the ultimate pleasure.**

IF that is true THEN women shouldn't be the ones deciding who gets sex! Our drive throughout history pushed us furthER than ever. If you take that drive away men will STOP trying to better society--an already observable phenomenon (MGTOW, hikikomori, homosexuals). Worst yet...**women will even ignore obvious red flags just to fuck a guy who fits their arbitrary standards.** They will throw away morality and decency in search of Chad. Is there **ANY** wonder why common decency has been on a steep decline. Look around! There's just no hiding it anymore. Most major religions **knew** this fact which is why women were subjugated.

Oh and rember that drive I mentioned earliER? Women have it too. They are willing to sacrifice society for it. What are *you* willing to sacrifice?

thanosisright188 · 23 June 2019 · Archived copy · Reddit

Do not swipe too fast. I am serious, this can lead to shadowbanning or tinder thinking your a bot and you will be pushed to the bottom of the queue

Here is what you do

1. download tinder, set up profile
2. Do not touch your profile for a whole day.
3. Swipe very slowly. Give about 1 minute per swipe for the first session. And dont use up all your swipes in your first session. Do like 30. And then in 30 minutes do another set, etc.

You dont want to end up making an awesome profile and getting no matches due to the algorithm

Simps are complaining that “guys are the same” when it comes to women’s degeneracy around Chad. Can a few people do a Stacy/Beckyfish?

IncelTearsIsLowIQ · 22 June 2019 · Archived copy · Reddit

People have and will start to counter this sub by saying “I don’t get the point, guys do the same thing.”

We need a hard counter to this. Someone set up a Beckyfish and try to bait out some responses that women would give to Chad.

Examples: -becky who is open about her 50+ body count

-becky who is a proud feminist (photoshop a feminist symbol(s) on her)

-extreme fetish Becky (you need to work up to her fetish during convo) (scat, have him pee on her, animals, knife play, blood play)

-Bitchy Becky (be a total bitch to him and see how he reacts)

NOTE: I say Beckyfish because a lot of guys would catch onto the fact that a 9/10 model type girl would want him to pee and shit on her

Additional note: You can Stacyfish, but you would need to swipe on attractive men only so he wouldn’t be wary of a bot/catfish.

[META] New Mods: Why It Shouldn't Be Happening

KnightOfSantiago · 24 June 2019 · Archived copy · Reddit

Look, I don't care who you are, you can't go from "lol just found this sub a week ago" to a moderator, especially with past experiences for other female mods on certain subreddits....

Can we get an official response? Why this moderator? Why even though it's a newish account who barely found the sub? It just doesn't make sense.

What's the point of this sub?

Hokaido251 · 14 June 2019 · Archived copy · Reddit

I can guarantee you that if you made a stacyfish profile you'd get the same type of response. I used to catfish for money on meetme.com using a young model that looked 16 (sophie kitten) and made thousands. Most of dudes who bought from me were actual pedos too.

So here you show that chicks don't give a shit about anything but looks. And that's different from dudes how? You think I'd get no matches if I put shit like "I kill little kittens with a gutting knife in my free time"? Seriously, try it. Make a cute lil tinder profile with a 15 yo girl with a fucked up bio and wait till you get showered in matches. This sub seems very hypocritical.

Suppose your real pics got matches from hot women and they were DTF. What would you do?

tortieaway · 20 June 2019 · Archived copy · Reddit

I'd be too scared to even meet an attractive woman. If forced into such a situation I would freeze up and have an emotional breakdown afterwards.

It's a blessing that I don't get any tinder matches. I rather just jump my pillow and fantasize. That's my comfort zone.

I wanted to chadfish now but it got even better...

just_give_me_noodles · 20 June 2019 · Archived copy · Reddit

(edit: fucking hell, sorry this got too long...):

So i was working and wanted some break so ended up on mirc (no joke...) with the intention to chadfish sluts.

Messaged someone with the nick 'baby_girl' or so, it started like very casual convo and it soon turned into hour+ chat about politics and philosophy (see at that point i couldn't care less what she looks like since I've passed 25 already "the point of no return" and at this point just holding convo with the opposite sex is all you need).

However at some point i noticed how she may get a bit bored and asked about snapchat/skype/pics you know the usual things. She sent pic right away and i had mixed feelings: at first given her knowledge of philosophy and as she was studying about "canonical law" or whatever i thought she's hardcore nun-kind of nerdy girl but she was either heavily maxed becky or light-stacey, surely not 8+ but tryna be up-there, 6+ or 7 maybe.

I was thinking "well i wasn't looking for fitness addict, slut-maxed bekkies who think they're hot shit, but you know since she is smart maybe she is good person and will at least use me as online friend since we chatted for hours!". Well i was wrong lol but it got better at the end...

So then I send her pics etc of what i look like (no chadfishing) and it ended as you think it may end lol. She didn't stop messaging right away but noticed how she doesn't care too much, the worst was her bragging about having sex with bbc (i am not black btw) so she was obviously trying to make me jealous, not to mention how she didn't comment on my appearance and refused to give snapchat, skype etc. Then I started teasing her too and said something like "oh you found black guy but i can't find korean girl, that's not fair!" lol, she was eastern european white but "white" as in dark eyes and hair, sorta white - colombian look, you get it.

Then I mentioned my asian-obsession several times and she got more mad lol..but in a 'jealous' way, sending me some nudes as if thinking i'd say 'white ass is the best' or so. Then she cut it by saying 'phone's ringing gotta go'.

Lol, all in all I'm happy i got rejected by 6.5/10 slut anglefrauding. Should've used chad maybe for bigger jealousy-fuel?

normietinder · 20 June 2019 · Archived copy · Reddit

I'm a normal guy here I had this happen to me a few times. Talk for awhile exchange phone numbers then they ask for a selfie. I send one and ask for on back, they send one back and then they ghost. It kills me becuase my photos are not edited or special, but they are good quality.

Be the first one to ask for a selfie of them after a bit of talk. Bonus points if you ask for a selfie with no makeup or editing.

[Suggestion] State your chadfishing success rate. An estimate would be fine.

SilverGryphon · 21 June 2019 · Archived copy · Reddit

I have seen several posts of successful chadfishing and I'm sure that some cherry picking is being done most of the times. I have also seen a few confused posters who complain that their first try did not work well. I'm sure that at least some foids will just say no to casual sex even it is Chad, for whatever reason.

It would be interesting and helpful for others to know how many foids you chadfished say yes to sex and how many gave a negative reply or never gave a response.

So for example if you message 40 foids and 10 take the bait and agree to sex it would be a 25% success rate.

This is a serious question. I genuinely want to know what it feels like to be someone who seems themselves as unfitting to the opposite sex. It's interesting to see individuals who feel the need to hide behind fake profiles to uncover how easy and inconsistent some women are.

ahobhitstail · 21 June 2019 · Archived copy · Reddit

You guys all loathe being on the low end of the totem pole, but seem to fail to realize that by doing the types of things that r/chadfishing encourages you will only keep yourselves there. Instead of putting effort into a zero-sum game, how about you focus on your education, your empathy or your fitness. Make your life better by making your life better. It's just a choice: effort into something worthwhile or effort into something that degrades you.

I'm not saying that you can be anything or look any way you want to, but we all get dealt a genetic hand at birth. Make the most of what you've got and earn the pride and humility that will improve your lives. Volunteer, try new things, change jobs or socialize in new environments.

You can do this, or you can make something out of yourself. I believe you can.

Pirateangel113 · 21 June 2019 · Archived copy · Reddit

If all 3000 people in this sub made a chad fish and those chad fish match with a 400 people each. That would put 1.2 million people in contact with a chadfish. I honestly think that could blow the cover on this whole thing. We need a few dedicated posters to post good factual results

Simps are complaining that “guys are the same” when it comes to women’s degeneracy around Chad. can a few people Stacy/Beckyfish?

IncelTearsIsLowIQ · 22 June 2019 · Archived copy · Reddit

People have and will start to counter this sub by saying “I don’t get the point, guys do the same thing.”

We need a hard counter to this. Someone set up a Beckyfish and try to bait out some responses that women would give to Chad.

Examples: -becky who is open about her 50+ body count

-becky who is a proud feminist (photoshop a feminist symbol(s) on her)

-extreme fetish Becky (you need to work up to her fetish during convo) (scat, have him pee on her, animals, knife play, blood play)

-Bitchy Becky (be a total bitch to him and see how he reacts)

NOTE: I say Beckyfish because a lot of guys would catch onto the fact that a 9/10 model type girl would want him to pee and shit on her

Additional note: You can Stacyfish, but you would need to swipe on attractive men only so he wouldn’t be wary of a bot/catfish.

SCIENTIFIC HIGH IQ CHADFISH EXPERIMENT

GLOBALWARMINGLORD · 21 June 2019 · Archived copy · Reddit

hello chadfish. Heres the mission briefing

Make a chadfish in a small town. Small enough that if you make 3 accounts, you will have a very high chance on being shown the same female in each.

The first acc should be a believable giga chad. The second a chadlite and the third a somewhat above average normie .(6/10) . Then if you match up with the same girl on all accs, try to get a one night stand with the whore using somewhat similar language on each. We know what the outcome will be but this will be radio active , irrefutable proof. If you turbo autists manage to replicate this experiment a dozen of times then we will have scientific evidence backed by data that women, are, infact, whores

Old Discord is Banned & New One is Up

NacTeas · 22 June 2019 · Archived copy · Reddit

To those who aren't aware, the last discord was shutdown by discord admins and it seems like every single user on that discord server was banned indiscriminately. **This** was the email everyone received for the ban, so it seems like the ban was solely from the nudes being posted in the chat.

I'm not going to post the invite link publicly because that's what got the last server banned after it filled up with losers and lurkers who stalk this subreddit religiously (and are also likely the ones who reported it). If you would like an invite link, you can PM me or post here. Hopefully this will get most if not all of the people who were active on the old one.

Please bear in mind that there's a good chance that eventually this discord will get banned too (and probably anyone else who is in it) simply because of the nature of these discords and the *some* of the people who post in them who simply have no self control. I'll do my best among others to moderate it and make sure to weed out people who shouldn't be in it to begin with but I can't make any promises. Many of the people from the last ban had their main discord accounts permanently banned, if you want to evade that you can make an alt discord account and just sign in on your browser or phone. Discord won't ban you by IP, so your main one will be safe and you'll be free to post and browse.

Happy chadfishing.
