Depp has filed a counter-suit against Amber Heard which is 5 times her reported net worth and it seems as though she is desperate to get dirt on her ex-husband in an attempt for him to settle, or throw out, his defamation case.

Amber Heard has meltdown after negative Johnny Depp press: fake black eyes and leaked audio tapes.

She hired a Private Investigator who has failed to dig up any dirt on the 56-year-old actor, and her appeal to have the case dismissed has officially been rejected. That means that Johnny Depp has sufficient evidence against Amber Heard and the judges will most likely rule in his favour.

A Video From 3 Years Ago Resurfaced Of Cardi B Admitting To Drugging And Robbing Men After Thinking They Were Going To Have Sex. Women Are Going Hard For Her Saying "It was years ago" and "She had to make a living" and "It's the past". Those Same Women Dragged Bill Cosby For Drugging Women Decades Ago And Made Sure He Was Sent To Prison. Cardi B Should Be Locked Up As Well. No Sympathy From Me! She Took Advantage Of Men And Should Be Held Accountable PERIOD! 🤔

Dunno about y'all, but I like a guy that earns his built by slinging 2000 lbs of hay.. stretches by breaking in a bronc.. nutrition from a good home cooked meal.. callouses from rope burns and grabbing horns.. farmers tan from a long hard day of fencing in 110+ degree weather. Not a pussy in the comforts of a gym and poisoned from supplements. =D

Fat fuck gets denied by own brother

xXBreezy · 22 March 2017 · Archived copy · Reddit

I am getting so tired of privileged men claiming fatshaming isn't a gendered issue because they experience it too. Not only do you not experience it anywhere nearly as severe as women do, for men, it's by and large a choice. The female body is genetically predisposed to store more fat, so no matter what we do, being fat is a genetic default for many women. To tell us to simply eat less or move more is literally shaming us for something we have no control over. Men on the other hand don't have that genetic make-up. When you see a fat man, you see a lazy man.

jagershotzz · 27 March 2017 · Archived copy · Reddit

Agony of being a 50/50 mum: Women once held the upper hand in custody battles. Now fathers are winning EQUAL access... and mothers are struggling to cope

- Nicola Hewitt, 42, an office manager from Kenley, Surrey, faces the trauma of being without her children Devon, 10, and Sonny, eight, every weekend
- Veronica Sweeney-Bird, a 33-year-old bar worker from Tunbridge Wells, a week-on, week-off shared care arrangement for her two daughters
- Mothers are having to divide time with their children equally with their exes

By LAUREN LIBBERT FOR THE DAILY MAIL

PUBLISHED: 08:39 EST, 5 May 2016 | UPDATED: 19:22 EST, 5 May 2016

Every mother lives for those small, joyful moments when her child masters something new - a book once too challenging, the telling of a joke previously stumbled over, a food devoured that had formerly been rejected.

For it's in the gentle minutiae of a little one's life that you really see their budding personality grow.

Imagine, then, the agonising pain of being privy to your child's life for only half the time. The milestones missed. The lost cuddles before bedtime. The long nights spent wondering if they are sleeping sweetly or crying out for Mummy.

YouTube Screenshot of Karate teacher Stephannie Figueroa, who has been arrested for indecent exposure and soliciting a minor.

When a 21-year-old karate teacher in Orlando, Fla., sent an 11-year-old boy in her class nude photos and said, "I want to have sex with you," **he responded casually**, writing, "OK IDC" (shorthand for "Okay, I don't care").

Hi [redacted], i guess you forgot about adding me on here? ...Firstly, don't flatter yourself. Secondly, you've worked here about 5 months and you didn't work out that i'm gay? I know i don't prance around the office like a queen, but it's not exactly a secret. Thirdly, that 'shit stuff' is called your 'job', you know, what i pay you to do. But the fact that you seem able to fuck-up the simplest of tasks might contribute to how you feel about it. And lastly, you also seem to have forgotten that you have 2 weeks left on your 6 month trial period. Don't bother coming in tomorrow. I'll pop your P45 in the post, and you can come in whenever you like to pick up any stuff you've left here. And yes, i'm serious.

You have to get into the mindset of a girl to understand. To be at that level of self absorption is something men will find very hard to comprehend. The whole reason she took that pic is because she thought that the silly face she was doing made her look cute, but she can't just post some random pic of her making that face because it would be weird. So she looks around and tries to find something weird going on that would be a good excuse for her to make that face. She can't really see anything but she sees some guy and thinks maybe I can use the way he's standing as an excuse to take a pic of me making my sexy cute face. Now the man in the pic looks like a perfectly normal dude who isn't really doing anything weird but that's not relevant. He was just a prop she could use to further her own vain pursuits. His feelings or even the way he was standing didn't come into the equation at all. It's like when a girl tweets "When he is 6'4 <3 <3 xD". She's not thinking of the billions of guys who aren't 6'4 that might get upset about that. She's just thinking about that one 6'4 guy in her class and what she can do to get him to notice her. "hmm maybe he doesn't know he likes me. I know! I'll post a tweet saying I like guys who look like him". When you start to take peoples feelings out of the equation only think inwardly it becomes easy to understand. Basically when she posted that pic the only thing that was going through her mind was "I hope people think this face makes me look cute"

Mel Schilling explains the difference between a dealbreaker and a relationship preference.

Guy refuses to pay for his date's \$176 lobster dinner and her reaction is brutal

by Karishma Sarkari · Fri, 11 Jan 3:42am

First dates can be awkward at the best of times, especially when reaching for the bill.

But for one guy, it turned into quite the argument with his date after the fact. He posted their spat on Reddit, with many users quick to point out who they thought was in the wrong.

I've begun silently fighting back against jerks on the subway who sit as spread out as possible. Basically I match your stance.

This guy was sitting on the train with his knees splayed and his hands on the seat to either side of him. So I slowly backed up into the seat next to him forcing him to either move his hand or have me sit on it. Then I spread my knees equally wide and stuck my elbows out just as far.

It's amazing how uncomfortable this makes men.

Eventually he closed his knees more (so I closed mine.) The ladies across from me noticed this silent warfare and were slightly confused. When he finally got off the train and I sat like a "lady" they realized what I did and grinned at me.

Yep. This is my new thing to do on the subway.

ur a little rebel i like u

psst hey

You know why most guys sit like that?

It's a body language signal known as a "crotch display" and it's used to show dominance/confidence.

This is why guys get uncomfortable when women do this, and also why women are told to sit "like a lady" - basically, without the crotch display. When women do it, they're telling all the dudes that they're either stronger or on equal standing with them.

So I say right on, ladies! Go for it.

NO

NO

NO

WE DO NOT SIT WITH OUT LEGS SPREAD BECAUSE WE WANT TO 'SEXUALLY DOMINATE THE SCENE' OR WHATEVER BULLCRAP YOU WANT TO COME UP WITH.

WE SIT LIKE THAT BECAUSE WE HAVE TESTICLES IN THE MIDDLE THAT ARE FUCKING SENSITIVE TO HEAT AND PRESSURE. MAKING IT MORE COMFORTABLE TO SPREAD OUR LEGS.

WE CLOSE OURS WHEN YOU 'IMITATE' US BECAUSE WE REALISE YOU WANT MORE SPACE AND SO WE BE POLITE AND GIVE IT TO YOU

WE SIT LIKE THIS ANYWHERE
HOW ARE WE OPRESSING YOU WHEN WE SIT LIKE THIS ON OUR OWN, IN PRIVATE?

JESUS FUCK

NOT EVERYTHING IS THE GODDAMN PATRIARCHY

This man asked me out on a date. He was actually fine as hell but when I asked him where we going he said and I quote ladies "Applebee's". I busted out laughing at his silly cheap ass. I told him "I own my own shop, a house, a BMW and stocks. I can buy Applebee's"! Then I walked away 🤔🤔 you should have seen his face. I'm worth more than Applebee's, you have to impress me and that ain't it! Ladies keep them standards high as hell, don't settle for a broke man ¹⁰⁰

👍👍👍 You and 185 others

47 shares

So because he offered to take you to dinner at Applebee's he's broke? You had to tell him of all your worldly accomplishments to sound good? You don't know that man's financial status. He could own several Applebee's, he could be a broker, he could be a doctor but you judged him off a restaurant? I'm sure if I saw his face he would be laughing because he just dodged a bullet. You own all of those things but you still don't have a man. It's not because your standards are high it's because you ain't shit.

Amber Heard loses bid to get \$50 million defamation suit by her ex Johnny Depp

NadxC · 28 March 2020 · Archived copy · Reddit

EXCLUSIVE: Amber Heard loses bid to get \$50 million defamation suit by her ex Johnny Depp thrown out as actor fights off claims he was a 'monster' who abused her

- Johnny Depp is suing Amer Heard for defamation over a Washington Post op-ed in which she said she was 'a public figure representing domestic abuse'
- He says he was portrayed as an abuser and it cost him his role as Captain Jack Sparrow in the Pirates of the Carribean franchise
- But her lawyers say he is not named and tried to have the case thrown out
- Judge in Fairfax County, Virginia, ruled that the case would go on although he dismissed one of the four parts of Depp's libel claim
- Depp has always argued that he was the victim of an 'elaborate hoax' instigated by his ex-wife, who 'faked' her injuries with makeup
- Heard has previously responded with a 300-page filing of her own, cataloging the years of alleged abuse she suffered at the hands of 'the monster'

Yes, I 100% get where you're coming from, but being offended at being called a maid or driver also has classist connotations - there's nothing wrong in being a maid, she was a great woman who was super kind with my nieces

No. A lot of women don't go to cosmetology classes to learn how to do hair, they have the experience from growing up-their mom doing their hair, Then experimenting which what they can do themselves. This guy probably had short hair his entire life with no clue on what to do. He didn't just look up how to do a ponytail, he paid for actual classes so that he could do his little daughters hair in cool and creative ways so that SHE gets the learning experience and learns how to do it her own and then can go to school with fabulous.

This is A+ daddy right here, he went above and beyond because he knows that he lack in certain areas where a mom would pick this up. Please don't destroy nice things that men do simply because they are men and you want to hate them.

Good one. While we're at it, let's ban Mother's Day too. It's also "offensive to same-sex parents" and single fathers. This is why nobody takes feminists seriously. Women at Google defy stereotype by getting super-emotional and calling in sick over a man saying something they don't like.

Nothing says "I'm as capable as a man" like skipping work because of something someone with no power in your company wrote.

When girls say
"all guys ever want is sex from me and I
hate it."
Tell them
You have no hobbies, no talents, no
wisdom, no legitimate interests beyond
your personal vanity, no original thoughts
on politics, society, philosophy, or anything
else. All you talk about is random celebrity
dudes you have crushes on, your exes, and
other shit that revolves around men or
getting a man while sharing the most
generic memes imaginable. What the fuck
else is there to want from such a vapid
shell of a person? Your only redeeming
quality is that you can lay still and take a
dick. Why are you surprised?

In case anyone is wondering. Brian Is now a happy man with a wife and kids and a networth of 2 million dollars, he signed with the Atlanta Falcons in 2013. Shortly after he was exonerated.

Oh and the accuser got what she deserved too... Unfortunately she didn't get life in prison. But she is now over 1 million dollars in debt, so sucks for her.

No. A lot of women don't go to cosmetology classes to learn how to do hair, they have the experience from growing up-their mom doing their hair, Then experimenting which what they can do themselves. This guy probably had short hair his entire life with no clue on what to do. He didn't just look up how to do a ponytail, he paid for actual classes so that he could do his little daughters hair in cool and creative ways so that SHE gets the learning experience and learns how to do it her own and then can go to school with fabulous.

This is A+ daddy right here, he went above and beyond because he knows that he lack in certain areas where a mom would pick this up. Please don't destroy nice things that men do simply because they are men and you want to hate them.

Thank you for failing my test. - It cannot be strapless and should show little to no cleavage

This man asked me out on a date. He was actually fine as hell but when I asked him where we going he said and I quote ladies "Applebee's". I busted out laughing at his silly cheap ass. I told him "I own my own shop, a house, a BMW and stocks. I can buy Applebee's"! Then I walked away 😂😂 you should have seen his face. I'm worth more than Applebee's, you have to impress me and that ain't it! Ladies keep them standards high as hell, don't settle for a broke man 100

👍👍👍 You and 185 others

47 shares

So because he offered to take you to dinner at Applebee's he's broke? You had to tell him of all your worldly accomplishments to sound good? You don't know that man's financial status. He could own several Applebee's, he could be a broker, he could be a doctor but you judged him off a restaurant? I'm sure if I saw his face he would be laughing because he just dodged a bullet. You own all of those things but you still don't have a man. It's not because your standards are high it's because you ain't shit.

Good one. While we're at it, let's ban Mother's Day too. It's also "offensive to same-sex parents" and single fathers. This is why nobody takes feminists seriously. Y'all want "equality" but your equality means takin' away rights, or holidays in this case, of others. Remember ladies, chivalry is dyin' because feminism is killin' it.

This man asked me out on a date. He was actually fine as hell but when I asked him where we going he said and I quote ladies "Applebee's". I busted out laughing at his silly cheap ass. I told him "I own my own shop, a house, a BMW and stocks. I can buy Applebee's"! Then I walked away 🤔🤔 you should have seen his face. I'm worth more than Applebee's, you have to impress me and that ain't it! Ladies keep them standards high as hell, don't settle for a broke man 100

👎👍😮 You and 185 others

Daphne Ford Sutton

So because he offered to take you to dinner at Applebee's he's broke? You had to tell him of all your worldly accomplishments to sound good? You don't know that man's financial status. He could own several Applebee's, he could be a broker, he could be a doctor but you judged him off a restaurant? I'm sure if I saw his face he would be laughing because he just dodged a bullet. You own all of those things but you still don't have a man. It's not because your standards are high it's because you ain't shit.

@CloydRivers

Good one. While we're at it, let's ban Mother's Day too. It's also "offensive to same-sex parents" and single fathers. This is why nobody takes feminists seriously. Y'all want "equality" but your equality means takin' away rights, or holidays in this case, of others. Remember ladies, chivalry is dyin' because feminism is killin' it.

Why can a person receive a fine of \$1,000 or be imprisoned for 3 days if they do not show up for jury duty after ignoring a jury summons? How can laws made by men compel a woman to be somewhere she doesn't choose to be?

Jury duty is your duty as an American citizen.
Gender is irrelevant.

People, regardless of gender, can receive a fine and be imprisoned for it because people decided it should be that way to get you to go to jury duty.

AITA for praising my son for sticking up for his brother?

My 13yo son had a crush on this girl named "Chelsea." He didn't know how to tell her so he handwrote her a poem, decorated it and took a picture and texted it to her. Nothing inappropriate. It was quite charming. Instead of turning him down, she shamed him by posting it on IG and calling him a weirdo and loser. My son was heartbroken. My other son, he's 16yo, responded by posting a picture of her mother dressed like a ho and said something about his brother might be weird but at least he isn't a THOT like her mom (I guess he found the picture going through the mom's FB account).

I found this out when Chelsea's mom asked me to have my son take down the post. I said I would when her daughter took down her post and replaced it with an apology. I knew the picture of her was far more humiliating. She did and I told my son to delete his post. The mom asked me if I was going to punish my son and I told her I was not because he was just sticking up for his brother.

I read one time about a man who bought a \$1.00 lottery ticket on a Monday. The divorce was finalized on Thursday, and on Saturday he won about \$25 million. His wife then sued him for half of it since he bought the ticket before the divorce was finalized. The judge ruled that, at the time he bought the ticket, it was worth \$1.00, and remained worth that amount until the lottery drawing, where the ticket would then be worth nothing if he lost and \$25 million since he won. As the ticket was still worth \$1.00 at the time the divorce was finalized, the judge ruled that the man had to pay his ex-wife 50 cents. I don't know how much of that went to her lawyer.

Is it bad that I saw this and thought, "hey good for her"? lmao

Yes actually lol 😂 1

We're in a social climate right now where women have been through so much shit, and if they want to take a machete and rape a dude every now and then, all the power to them. They literally create life, I think they should get a pass sometimes lol

This, ladies and gentlemen, is what you get when you voted up to a man who beats his young girlfriend in public. Not the blood, not the screams, not the sense of being a fucking great human being.

I'm sorry but I don't think this bitch is hot.

Go back to looking at a post that went viral when a man told good stories to make the best girl about the human race, but sadly, there are way too many things wrong with the story.

1. Either you were headbashed by a man with the smallest head in the world, or a virgin. Your body isn't that small. Your body should be somewhat round and your temple on the side of your head should be somewhat flat. It's hard to be a virgin thing. Also, your nose doesn't fit that side. I know people who've hit their eye and within an afternoon it's healed.

The people around your eye is the most suspicious part. Blood vessels don't really show in a virgin's face. There are veins, veins, veins, and finally, pores. Your skin isn't like a very tight mesh up.

2. You claim that the police got Chuck from the headbasher your nose. It's not just in the picture of her nose, and I bet not a lot of people on Tumblr are, but a few things immediately stand out from your story.

• Your nose and in between, your face goes through a lot of complications every day. Your face is exposed to the elements.

Now, why did you lose Chuck in your face, which is to say that you're not a virgin? If you're not a virgin, then you're not a virgin.

• If you're not a virgin, then you're not a virgin. If you're not a virgin, then you're not a virgin. If you're not a virgin, then you're not a virgin.

• If you're not a virgin, then you're not a virgin. If you're not a virgin, then you're not a virgin. If you're not a virgin, then you're not a virgin.

• If you're not a virgin, then you're not a virgin. If you're not a virgin, then you're not a virgin. If you're not a virgin, then you're not a virgin.

3. Looking at your previous photos, the most glaring thing occurs.

Photo of the woman in the top photo.

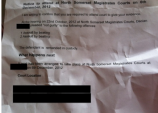

The top photo is taken nearly FIVE YEARS after your broken nose post. Now, if you're not a virgin, then you're not a virgin. And you can't have a broken nose within five years.

As you can see, the police from the broken nose picture were a waste of time, and there is no difference in your nose.

For something so prominent, it looks exactly the same. Where are the damages? Where are the injuries? You apparently claim your nose was broken. Where's the medical attention?

4. I don't like the look of your nose either.

Why is such a serious document accounted up so much? There's a legal document that you need to keep hold of in your records, why show it back the police and through your post? It's a waste of time.

There's also no official seal, and no signature on the document, which makes it invalid.

Anyone could've written this.

It's a document that's not real, and it's not real, and it's not real.

5. You claim that the police got Chuck from the headbasher your nose. It's not just in the picture of her nose, and I bet not a lot of people on Tumblr are, but a few things immediately stand out from your story.

• Your nose and in between, your face goes through a lot of complications every day. Your face is exposed to the elements.

Now, why did you lose Chuck in your face, which is to say that you're not a virgin? If you're not a virgin, then you're not a virgin.

• If you're not a virgin, then you're not a virgin. If you're not a virgin, then you're not a virgin. If you're not a virgin, then you're not a virgin.

• If you're not a virgin, then you're not a virgin. If you're not a virgin, then you're not a virgin. If you're not a virgin, then you're not a virgin.

• If you're not a virgin, then you're not a virgin. If you're not a virgin, then you're not a virgin. If you're not a virgin, then you're not a virgin.

• If you're not a virgin, then you're not a virgin. If you're not a virgin, then you're not a virgin. If you're not a virgin, then you're not a virgin.

• If you're not a virgin, then you're not a virgin. If you're not a virgin, then you're not a virgin. If you're not a virgin, then you're not a virgin.

Halle Berry sees the Flaws in Child Support after being forced to Pay Child Support.

PickleRick1163 · 10 February 2021 · Archived copy · Reddit

halleberry ✓ @island_life_2016 i'm not going to speak on alimony as i have never asked for it nor have i ever paid it. however, as for child support i feel i can speak on it as i've been paying it for a decade now. i feel if a woman or man is having to pay support that is way more than the reasonable needs to help SUPPORT the child, i think that is wrong ! i understand some parents (man or woman) may need help, but i also feel that in these modern times both men and women have the responsibility to financially take care of their children and work hard and make every effort to do so. the way many laws are set up people are allowed to USE children in order to be awarded money to live a lifestyle that not only they did not earn, but that is way above and beyond the child's reasonable needs, and that is "THE WRONG"and where i see the abuse. the laws are outdated and no longer reflect the modern world. this is just my opinion i clearly don't own the truth. i can say i'm living it everyday and i can tell you it's hard. i do totally understand the feelings of those men who feel they are and have been taken advantage of by the system.

Regarding the recent days, we would like to make clear that the influencer Gabi Cattuzzo is not a Razer spokesperson and has never been a voice of the brand. She was part of a team of influencers who were called to use the brand's products.

We are from the beginning, as gamers, facing the optimum of prejudice and stereotype, and we will continue to fight for this preconception to stop.

Razer Brazil reinforces that Gabi Cattuzzo opinion does not influence or necessarily reflects the opinion of the company, which is against any kind of discrimination towards sex, religion, political party, or any kind of intolerance and extremism.

We also inform that the contract with the influencer in question will expire in the next days and will not be renewed.

I am sick of people thinking deodorant is optional

i'm sick of people thinking that they can judge others on a normal bodily function and that the only way they can be accepted is to wear something that is harmful/poisonous to your body. just because some men in the 1880's decided bodily odor was no longer acceptable.

Agony of being a 50/50 mum: Women once held the upper hand in custody battles. Now fathers are winning EQUAL access... and mothers are struggling to cope

- Nicola Hewitt, 42, an office manager from Kenley, Surrey, faces the trauma of being without her children Devon, 10, and Sonny, eight, every weekend
- Veronica Sweeney-Bird, a 33-year-old bar worker from Tunbridge Wells, a week-on, week-off shared care arrangement for her two daughters
- Mothers are having to divide time with their children equally with their exes

By LAUREN LIBBERT FOR THE DAILY MAIL

PUBLISHED: 08:39 EST, 5 May 2016 | UPDATED: 19:22 EST, 5 May 2016

Every mother lives for those small, joyful moments when her child masters something new - a book once too challenging, the telling of a joke previously stumbled over, a food devoured that had formerly been rejected.

For it's in the gentle minutiae of a little one's life that you really see their budding personality grow.

Imagine, then, the agonising pain of being privy to your child's life for only half the time. The milestones missed. The lost cuddles before bedtime. The long nights spent wondering if they are sleeping sweetly or crying out for Mummy.

Prison sentence for woman who lied about rape for nine years

Only at the main hearing in the District Court did the woman admit that the charge of the nine-year-old "rape" was false, and that she in fact consented to the intercourse.

At that time, the man had been detained for seven months.

The High Court now tightens the prison sentence for false pretense and sentences the woman to 16 months in prison.

In July 2006, a 15-year-old girl reported to the Police that she had been raped. The girl, who was drunk at the time,

Black Person:

I find it offensive when you demonize black people like that.

I'm just saying "don't be a criminal." Is that really setting the bar too high for you? If you get offended by somebody telling you not to be a criminal then you are the type of black person who needs to hear this message. If you were one of the good ones you would support this.

1

[REDACTED] 9m

I wasn't playing a card. And the difference between calling a guy a dick and a woman a bitch, is that women have been seen as inferior for centuries. We only got the right to vote in 1920. Men have always been seen as the superior sex, they've always been worshipped. Misogyny is deeply rooted. Misandry is recent.

My wife cheated so I deported her. The SJW mods keep removing my story, really hoping this subreddit won't.

throwasydjejw8r8fn · 20 August 2021 · Archived copy · Reddit

Few notes : [r/prorevenge](#) has permanently banned me because I called them woke SJWs lmao. Apparently my story isn't "pro revenge". Both confession subreddits have shadowbanned me. I guess they really don't like when it's a [r/pussypassdenied](#) situation.

Here's a copy paste of my original post:

Where do I begin, we've been married 3 years and things were wonderful. I loved her. I thought she loved me. We had a dream wedding at an amazing place.

To put into context the confession, I was born and raised in my country but my parents are from a developing country where it really isn't that great. She's from there as well, so it was a damned hard process to sponsor her and get through every single hurdle to bring her here.

But she was not faithful. She'd been fucking this guy from her work for 4 months until I caught her.

At first I was sad. Very fucking sad. Then I was angry, and I perhaps ruined her life here.

I specifically applied to remove her visa sponsorship and it fucking went through. Actually I'm surprised because usually they let the spouse stay if it's been a few years and they're demonstrated integration into society but her visa got cancelled and she was deported yesterday.

I don't care but I am damned happy I ruined her life this way.

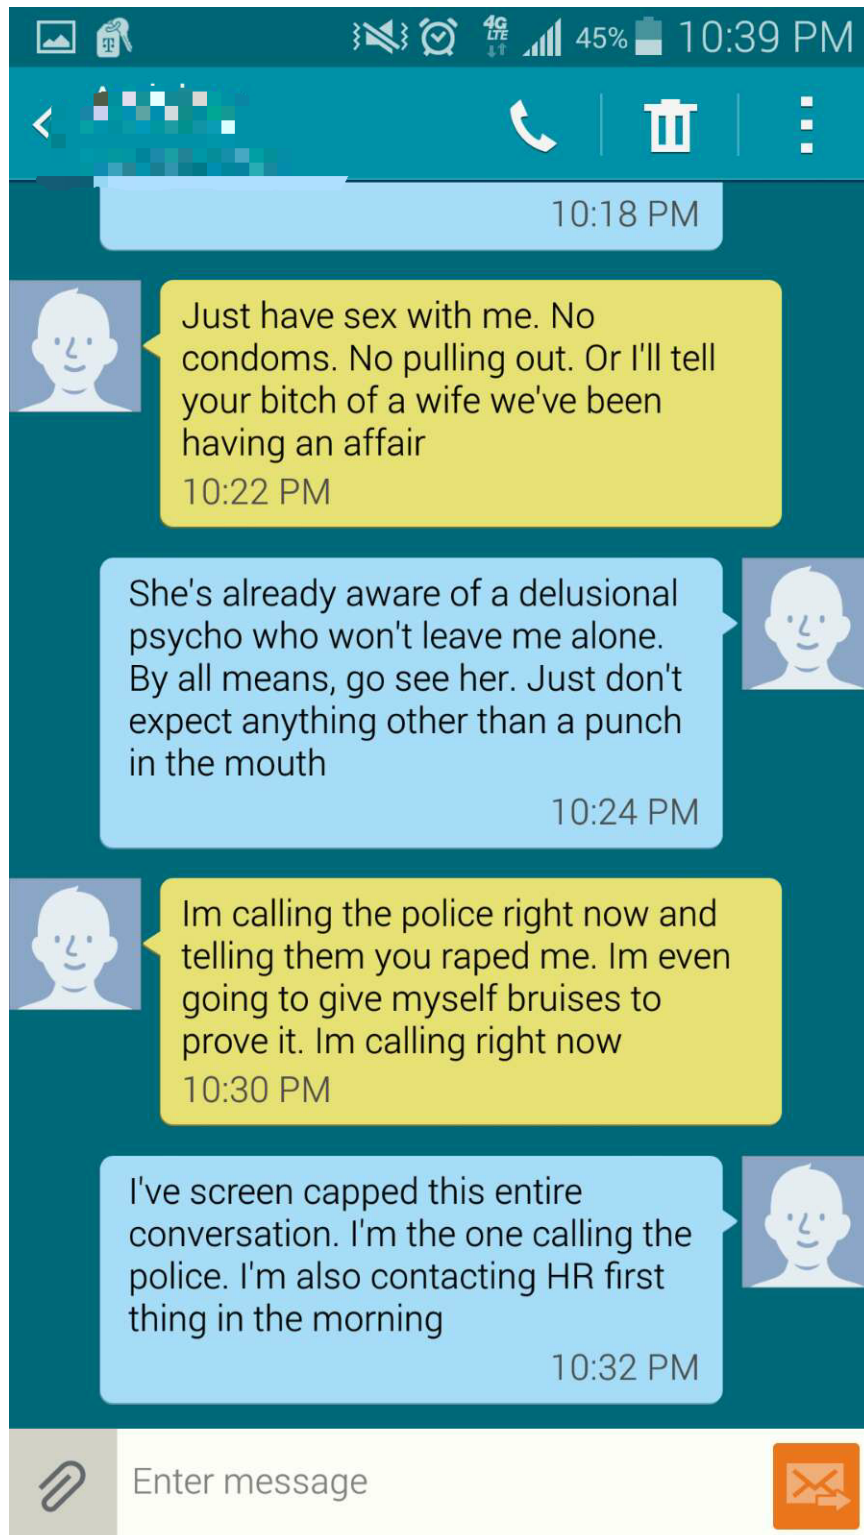

Note: This isn't AITA (that sub is a cesspool) and I'm not here for your judgement. I did what I did and I stand by my actions.

If you think I've "taken it too far" well I'd suggest sticking your head out of your ass and get a reality check; she ruined our marriage. I'm not sponsoring someone *who cheated on me*. If as a result she gets deported and it ruins her life, that's not my damned problem anymore :)

Girl criticises male behaviour while exhibiting the same behaviour herself, is called out

I've made a gym nemesis: I'm walking to head upstairs when I see a guy creepily & intensely watching a girl work out (staring directly at her butt). So naturally, I make a giant u-turn and stop directly between Creeper & the girl, disrupting his "view". Creeper and I then lock eyes & I stood there, hand on my hip, shaking my head no. Creeper is not pleased with this turn of events & walks away. B-B-Busted, you perv!!!

[Redacted] I disagree. One could argue that taking photos of people you find sexually attractive is far more egregious than simply looking at them. Both are creeper moves; but only one is acceptable because she was "owning it"? Your gym perv was clearly "owning it" by staring so blatantly. So what makes the two situations different, other than their sex? I guess sexism only works one way?

So because he offered to take you to dinner at Applebee's he's broke? You had to tell him of all your worldly accomplishments to sound good? You don't know that man's financial status. He could own several Applebee's, he could be a broker, he could be a doctor but you judged him off a restaurant? I'm sure if I saw his face he would be laughing because he just dodged a bullet. Interpretation:
Combined Paternity Index: 0
Probability of Paternity: 0%

The alleged father is excluded as the biological father of the tested child. This conclusion is based on the non-matching alleles observed at the loci listed above with a PI equal to 0. So I cringe at these fake stories but this legit happened to me yesterday. I was on the phone and some girl was being very flirtatious with me. I hang up and a female coworker next to me says shes definitely hitting on you. So I jokingly say, "can you blame her?"

Out of nowhere she says, "I have a height requirement." So I counter with telling her I have a weight requirement. And she has the audacity to ask me if I'm calling her fat. So I ask her if she's calling me short. She says yeah. So I tell her, "well I guess I'm calling you fat."

She storms off and proceeds to bitch to everyone how mean I was to her. One guy straight up told her that it sounded like she had it coming haha.

EXCLUSIVE: OnlyFans star who accused timeshare mogul, 59, of forcibly performing oral sex on her on their first date admitted she 'let him' but didn't want to sleep with him until 'he spoils me,' texts to matchmaker reveal

By Josh Boswell For Dailymail.com

18:51 01 Oct 2021, updated 15:30 02 Oct 2021

'I wanted to give him a taste so he would want more I'll see him tomorrow and not do anything and let him know what I want if we are to keep seeing each other [sic] and go from there I guess!'

In earlier texts from July 28, Le offered to set up Gurzanski with Cloobek, describing him as 'a great guy super generous looking for a gf. Very very generous, he's older, single.'

Gurzanski responded that she was 'looking for someone to do like rent and gifts. Lots of gifts tho.'

The matchmaker told the model that Cloobek has 'given checks and Birkenstocks, the whole loub store if he really loves you, right away.'

The messages threaten to throw a wrench in Gurzanski's legal action against her ex by appearing to contradict her legal claims.

Cloobek and Gurzanski dated from July to December last year, when their relationship spectacularly imploded, sparking a legal battle.

Cloobek sued Gurzanski in January, claiming she is a 'con artist' who bilked him for \$1.3million in gifts over their roughly six-month relationship.

In her restraining order filing, multiple police reports and media interviews, and in discussions with attorneys Gurzanski over the next eight months Gurzanski did not mention a sexual assault – until she filed a counter-complaint with the explosive claims in September.

The last woman - "Did you hear that men are going to be obsolete because we're making synthetic spermMake a case for men."

OK, challenge accepted. If you, lady want to eat crab salad you get in your car, drive to the supermarket, buy the provisions, drive back home and cook your meal - simple.

Now let's imagine a world without men, you want to cook crab salad, you get in your car except you have no car because generally you don't work in car construction plants, even if you did where are you getting the steel from? The foundry - are you going to start working in a steel foundry? Where are you getting the iron ore from? How many women work in mining? How are you getting the iron ore to the foundry, you're going to have to get a load more female truck drivers. You're also going to need coal - are you going to dig it out the ground yourselves?

Let's ignore that for a minute - your car won't start because there is no petrol unless women also start drilling, can't see that happening.

We'll ignore that for a minute - where is the road? Who laid the road? How many women do that sort of work? Where are you getting the materials to build the road, we're back to the mining and drilling problem.

We'll ignore that for a minute, we'll assume that by some miracle that you have a car with petrol and a road to drive along, when you get to the supermarket you find there is no crab, why is that? Well, we've all seen 'Deadliest Catch', we all know how difficult, dangerous and uncomfortable crab fishing is, how many women are employed doing that? How many would have the physical strength to do it? How many would even want to?

Even ignoring that for a minute where are you getting your boat from? Assuming that some of your sisters are now running the foundry to supply the steel how many of them are going to operate the machinery to build a boat, how many female welders are out there?

We'll ignore these minor problems just for the sake of argument. Let's say that yes, you manage to buy your crab and you drive home. When I say home you have to wonder how your house got built in the first place. Are we having women taking over construction? How many sisters are going to become bricklayers, carpenters, plumbers, electricians, roofers? Are you ladies going to be installing all the drainage? Without the work currently mainly undertaken by men you would have no home.

We'll ignore this minor inconvenience just for a minute. You now want to cook your crab, simple enough task, just put it in a pan of water and turn on the gas and hey-presto, one cooked crab. That assumes that you have both gas and water, how many women work in the gas industry or the water supply industry at a hands-on level. You can count them on all the fingers of one foot.

Yes, it is theoretically possible for women to do all of these tasks, the real question is - would you actually want to or would you rather leave the men to do this sort of work.

If you are going to say that women would cope, fine, all I would suggest is that next time your drain backs up, rather than asking a man to clear it you get the drain rods out and do it yourself. Us men would be more than happy to watch.

Alternatively, I as a man would be only too happy to cook you a crab salad and serve it up for you when you get home from a 10 hour shift in a coal mine, steel foundry, laying drains, building roads, laying bricks or fishing for crab.

Single Woman's Title = Miss
Married Woman's Title = Mrs.
Unknown Woman's Title = Ms.

Married Man's Title = Mr.
Single Man's Title = Mr.
Unknown Man's Title = Mr.

Because a woman only has status if she is married

think about it.

add an apostrophe to Mrs = **Mr's**.

think about it.

and then go throw up.

Actually, that's entirely incorrect.

For men, in the UK and in other English-speaking countries, *Master* is used for boys under 18, e.g. *Master John Smith*. When he becomes a man, he gets the title Mister.

The women's title structure is similarly designed. *Miss* refers to a girl typically where *Mrs* (short for *Mistress*, the female equivalent of *Mister*, not *Mister's* as you suggest) is for a married woman. In the early 20th century however, *Ms* was re-introduced specifically to give unmarried women a title that wasn't as insulting as calling an adult woman *Miss* or an unmarried one *Mrs*.

Today, *Ms* is usually used by adult women of married, unmarried, or divorced status and has become a generic term which is safe to use if unsure about her preferred title.

Next time, fact check before you go on the offensive. There are really worthy causes out there which need help and attention but historically inaccurate styles of address isn't really one of them.

men fabricated the idea that they are the default sex to compensate for their biological inferiority and general superfluosness

this is not just the "natural order" this is the language of a patriarchal culture

 rhyiare

Omg no, you are wrong on so many levels and as a linguist this makes me ache something terrible. In my linguistics class in undergrad, we actually made fun of people who think like you along these lines and for good reason, because you are wholly ignorant and are choosing to spin narratives about things and fields which you know completely nothing about yet pretend you do.

1. She: This word evolved naturally from Old English from seo/heo which were just words to refer to feminine-female people evolving from Proto-Germanic words meaning 'that/there'. He as a word evolved from the same ideas but Proto-Germanic words for 'this/here'. Your idea of 'patriarchal language' further falls apart when you compare this part of English to other Germanic languages, of which English is related, the words in German for he and she are 'er' and 'sie', completely unrelated. So it is by clear happenstance, not some patriarchal conspiracy that the words 'he' and 'she' in English have similar form.
2. Woman: Oh god this one always gets my goat when people go for this one. Man did not used to mean 'male', man used to mean 'humanity/human being', the old words in Old English for male adult person and female adult person were 'werman' and 'wifman' respectively, we can see this relation in words like werewolf and wife as being the remnants of the base 'wer-' and the base 'wif-'. Woman evolved phonologically from the word 'wifman' by natural processes where the 'f' sound dropped and the 'i' became lax. Man dropped its 'wer' stem for reasons mostly unknown but I can guarantee have nothing to do with 'patriarchy' because phonological change has no basis in that.
3. Female: Male and Female actually come etymologically from two completely different words. Male comes from Old French 'masle' which meant masculine, while Female came from Old French as well 'femella' which meant young woman. This is another case, just like he and she, where the words coincidentally ended up looking similar without having any direct correlation in historical linguistic processes to make them as such.
4. Human: This word etymologically derives from Proto-Indo-European 'ghomon' which means earthly being as opposed to heavenly being which would refer to gods. You have some small glimmer of hope here in that the word does eventually branch off into the word for 'man' in some languages but this is still too small of a precedent to base any conspiratorial thinking like you are doing off of.
5. Person: This one offends me the most, simply because I love the fuck out of Etruscan language and your continued ignorance just lks me at this point. Person derives from 'persona' from Latin which meant the same meaning, which ultimately derived from 'phersu' Etruscan for 'mask' as Etruscans would often have theatre performers use masks to give identity to the performers. So never once did 'person' have any meaning to do with 'son'. So yes, this IS the 'natural order' or language.

Please never proselytise your faulty ideology and misandrist thinking within speaking about word origins and morphology again, as unless you actually do fact checking. I will school the everloving hell out of you, stay in your lane.

Pass denied to fatty

tmone · 25 January 2020 · Archived copy · Reddit

45 mins

I am getting so tired of privileged men claiming fatshaming isn't a gendered issue because they experience it too. Not only do you not experience it anywhere nearly as severe as women do, for men, it's by and large a choice. The female body is genetically predisposed to store more fat, so no matter what we do, being fat is a genetic default for many women. To tell us to simply eat less or move more is literally shaming us for something we have no control over. Men on the other hand don't have that genetic make-up. When you see a fat man, you see a lazy man.
